At last Doctor Evadne Hinge emerges from the shadow of her former colleague and oldest friend, world-renowned soprano Dame Hilda Bracket, to tell her own story. And it's not the story you might imagine. Against a lovingly-drawn background of music and theatre, Doctor Hinge speaks frankly about her personal life. Her student days and her first love; her friendships with the good, the bad, the ugly, and the downright criminal; the men in her life and her troubles with her unusual family - whose hobbies, she tells us, include murder, blackmail, drug abuse, adultery and other less light-hearted pastimes. After the death of Dame Hilda in 2002, Doctor Hinge agreed to speak at some length about her life to her close friend, George Logan. She stipulated that these reminiscences, recorded on tape, should remain unpublished until after her death. However, since it appears that that event is yet some way off - the Doctor is now a robust ninety-four - she has finally agreed to their wider dissemination.

Few will dispute the profound influence that African American music and movement has had in American and world culture. Dancing Many Drums explores that influence through a groundbreaking collection of essays on African American dance history, theory, and practice. In so doing, it reevaluates "black" and "African American" as both racial and dance categories. Abundantly illustrated, the volume includes images of a wide variety of dance forms and performers, from ring shouts, vaudeville, and social dances to professional dance companies and Hollywood movie dancing. Bringing together issues of race, gender, politics, history, and dance, Dancing Many Drums ranges widely, including discussions of dance instruction songs, the blues aesthetic, and Katherine Dunham ' s controversial ballet about lynching, Southland. In addition, there are two photo essays: the first on African dance in New York by noted dance photographer Mansa Musa, and another on the 1934 "African opera," Kyunkunko, or the Witch Woman.
