Journeys are moments in life that define and reconstruct the myths we create about ourselves and others. All too often the ideals of a biased community or select group are viewed as the model by which all individuals must follow. To escape the pressures of a collective standard a person must travel outside the constraints of a community and discover his or her own true identity.

founding of the Syrian Protestant College by Presbyterian missionaries. Later on the college became known the American University of Beirut in Beirut, Lebanon (1920). Throughout the manuscript, the author attempts to comment on certain important clinical research as well as his journey into clinical research both in Lebanon and in the United States. An interesting section of the book includes the discovery of the pulmonary circulation by Ibn an-Nafis.

In this book, Philip Tite explores the role of biblical texts in the promotion of peace and violence. He begins by exploring the function of religious texts as ideological elements, recognizing that the New

Testament affects the social construction of 'realities' or cultures within which people read and apply authoritative writings to ethical discussions. Arguing that an 'engaged reading' of these texts is central within moral discourse, Dr. Tite explores such issues as feminist challenges to biblical ethics, Jewish-Christian relations, and gay and lesbian ethical disputes in Christianity.

This work takes an in-depth look at the world of comic books through the eyes of a Native American reader and offers frank commentary on the medium's cultural representation of the Native American people. It addresses a range of portrayals, from the bloodthirsty

music and clinical studies. Each chapter considers a particular methodological issue or approach, illustrating how it was addressed in the course of the research. Each of the chapters concludes with a set of discussion exercises and a further reading list. The book offers a valuable resource for established researchers seeking to expand their methodological and theoretical repertoire, and for graduate students and researchers new to narrative methods.

increasingly important place in academic study. The two are inextricably linked. Education uses biography in teaching, and in biography, education features strongly as a formative stage in personal development. This book elaborates on the analytical work that has drawn attention to biography and education, and seeks to expand the understanding of lives in educational contexts. Mainstream sociology has been quick to embrace this treatment of individuals as biographical appearances, but it is even more relevant in the field of education.
