As was common elsewhere in Europe during the years leading up to the Holocaust, the neighbors of local indigenous Jews were all too ready, willing, and able not only to help in the swift and brutal dispatch of so many innocent people who lived among them, but were also swift in redistributing all of the earthly possessions of the victims, from the houses, farms, and apartments to furniture, clothing, bank accounts, and the rare automobile.

A landmark book that changed the story of Poland's role in the Holocaust On July 10, 1941, in Nazi-occupied Poland, half of the town of Jedwabne brutally murdered the other half: 1,600 men, women, and children—all but seven of the town's Jews. In this shocking and compelling classic of Holocaust history, Jan Gross reveals how Jedwabne's Jews were murdered not by faceless Nazis but by people who knew them well—their non-Jewish Polish neighbors. A previously untold story of the complicity of non-Germans in the extermination of the Jews, Neighbors shows how people victimized by the Nazis could at the same time victimize their Jewish fellow citizens. In a new preface, Gross reflects on the book's explosive international impact and the backlash it continues to provoke from right-wing Polish nationalists who still deny their ancestors' role in the destruction of the Jews.

Winner of the National Jewish Book Award in the Holocaust category A monumental work of nonfiction on a wartime atrocity, its sixty-year denial, and the

impact of its truth Jan Gross's hugely controversial *Neighbors* was a historian's disclosure of the events in the small Polish town of Jedwabne on July 10, 1941, when the citizens rounded up the Jewish population and burned them alive in a barn. The massacre was a shocking secret that had been suppressed for more than sixty years, and it provoked the most important public debate in Poland since 1989. From the outset, Anna Bikont reported on the town, combing through archives and interviewing residents who survived the war period. Her writing became a crucial part of the debate and she herself an actor in a national drama. Part history, part memoir, *The Crime and the Silence* is the journalist's account of these events: both the story of the massacre told through oral histories of survivors and witnesses, and a portrait of a Polish town coming to terms with its dark past. Including the perspectives of both heroes and perpetrators, Bikont chronicles the sources of the hatred that exploded against Jews and asks what myths grow on hidden memories, what destruction they cause, and what happens to a society that refuses to accept a horrific truth. A profoundly moving exploration of being Jewish in modern Poland that Julian Barnes called "one of the most chilling books," *The Crime and the Silence* is a vital contribution to Holocaust history and a fascinating story of a town coming to terms with its dark past.

Examines the many reasons and motivations for the destruction of books throughout history, citing specific acts from the smashing of ancient Sumerian tablets to the looting of libraries in post-war Iraq.

Almost as old as the idea of the library is the urge to destroy it. Author Lucien X. Polastron traces the history of this destruction, examining the causes for these disasters, the treasures that have been lost, and where the surviving books, if any, have ended up. *Books on Fire* received the 2004 Société des Gens de Lettres Prize for Nonfiction/History in Paris.

One summer day in 1941, half of the Polish town of Jedwabne murdered the other half - 1,600 men, women, and children - all but seven of the town's Jews. *Neighbours* tells their story. Jan Gross pieces together eyewitness accounts and other evidence into an engulfing reconstruction of the horrific July day remembered well by locals but forgotten by history. The unfolding of his investigation yields wider truths about the Holocaust, and human responses to occupation and totalitarianism. The newly occupying German army did not compel the massacre, and Jedwabne's Jews and Christians had previously enjoyed cordial relations. After the war, the nearby family who saved Jedwabne's surviving Jews was derided and driven from the area. The single Jew offered mercy by the town declined it. Most arresting is the sinking realization that Jedwabne's Jews were clubbed, drowned, gutted and burned not by faceless Nazis, but by people whose features and names they knew well: their former schoolmates and those who sold them food, bought their milk, and chatted with them in the street. As much as such a question can ever be answered, *Neighbours* tells us why.

It is 1876, the year of the Centennial in Philadelphia. Katherine has lost her twin sister Anna in a tragic skating accident. One wickedly hot September day, Katherine sets out for the exhibition grounds to cut short the haunted life she no longer wants to live. Filled with vivid detail that artfully brings the past to life, National Book Award nominee Beth Kephart's *DANGEROUS NEIGHBORS* is a timeless and finely crafted novel about betrayal and guilt, hope and despair, love, loss, and new beginnings. Publisher's Weekly Starred Review Set in Philadelphia against the back-drop of the 1876 Centennial Exhibition (the first World's Fair in the U.S.), this atmospheric novel traces the sentiments of grief-stricken Katherine, whose identical twin sister, Anna, died in a tragic accident earlier in the year. As the novel opens, Katherine, who feels responsible for Anna's death, has decided to take her own life. Again and again, she is drawn to the exhibition grounds. Here, futuristic marvels and unexpected events—including a disastrous fire—detain her from completing her suicidal mission. Losing herself in a throng of strangers, she examines her past, recalling the development of her sister's secret romance with a "dangerous neighbor" and the final sequence of events that led to Anna's death. Conjuring sharp, meticulously detailed images of fair exhibitions ("The wonders of the world slide past. Parisian corsets cavorting on their pedestals. Vases on lacquered shelves. Folding beds. Walls of cutlery. The sweetest assortment of sugar-colored pills, all set to sail on a yacht"), Kephart (*The Heart is Not a Size*) evokes a tantalizing portrait of love, remorse, and redemption. Ages 12-up. (Aug.)

Murder is committed for its own sake in the three fictional episodes of *The Book of Destruction*. In 'The Gardener', the narrator learns from the thug Seshadri that he has been selected for assassination for no reason but the pure purpose of killing. A discotheque is bombed out of existence in 'The Hotelier and the Traveller'. In the third episode, leading the narrator to an elaborately staged orgy and sacrifice, stitched clothes escape from a tailor's shop and soar down the streets to take over bodies. The cruelty of killers and the wretchedness of victims are shifted to the margins as the novel focuses on the act of murder. In his inimitable style, Anand takes the mesmerized reader on a journey of three stages—the practice of killing, the sacrifice of the victim and the sacrifice of the sacrificer—before bringing the story of destruction to its finale.

In December 1572 the Mughal emperor Akbar arrived in the port city of Khambayat. Having been raised in distant Kabul, Akbar, in his thirty years, had never been to the ocean. Presumably anxious with the news about the Mughal military campaign in Gujarat, several Portuguese merchants in Khambayat rushed to Akbar's presence. This encounter marked the beginning of a long, complex, and unequal relationship between a continental Muslim empire that

was expanding into south India, often looking back to Central Asia, and a European Christian maritime empire whose rulers considered themselves 'kings of the sea'. By the middle of the seventeenth century, these two empires faced each other across thousands of kilometres from Sind to Bijapur, with a supplementary eastern arm in faraway Bengal. Focusing on borderland management, imperial projects, and cross-cultural circulation, this volume delves into the ways in which, between c. 1570 and c. 1640, the Portuguese understood and dealt with their undesirably close neighbours—the Mughals.

This fascinating study brings to light the existence of a previously ignored Middle Bronze Age civilization occupying the fertile circular plain north of the Dead Sea and its subsequent destruction ca. 1700 BC. The author, Dr. Phillip Silvia, correlates scientific and archaeological data acquired through the Tall el-Hammam Excavation Project (TeHEP) to the Biblical account of the destruction of Sodom and Gomorrah and the cities of the plain in the book of Genesis.

A decimated Shiite shrine in Iraq. The smoking World Trade Center site. The scorched cityscape of 1945 Dresden. Among the most indelible scars left by war is the destroyed landscapes, and such architectural devastation damages far more than mere buildings. Robert Bevan argues herethat shattered buildings are not merely "collateral damage," but rather calculated acts of cultural annihilation. From Hitler's Kristallnacht to the toppling of Saddam Hussein's statue in the Iraq War, Bevan deftly sifts through military campaigns and their tactics throughout history, and analyzes the cultural impact and catastrophic consequences of architectural destruction. For Bevan, these actions are nothing less than cultural genocide. Ultimately, Bevan forcefully argues for the prosecution of nations that purposely flout established international treaties against destroyed architecture. A passionate and thought-provoking cri de coeur, *The Destruction of Memory* raises questions about the costs of war that run deeper than blood and money. "The idea of a global inheritance seems to have fallen by the wayside and lessons that should have long ago been learned are still being recklessly disregarded. This is what makes Bevan's book relevant, even urgent: much of the destruction of which it speaks is still under way."—Financial Times Magazine "The message of Robert Bevan's devastating book is that war is about killing cultures, identities and memories as much as it is about killing people and occupying territory."—Sunday Times "As Bevan's fascinating, melancholy book shows, symbolic buildings have long been targeted in and out of war as a particular kind of mnemonic violence against those to whom they are special."—The Guardian
