Here's a quick description of these two life-changing books: 'Hypnosis - How to Hypnotize Anyone' - The history of hypnosis is discussed, bringing you all the way to how you can hypnotize someone anywhere, anyplace, at anytime. You will learn the definition of hypnotism, as well as how it was used historically, and how it is used today. The book will give you an overview of some of the terrible and frightening ways that hypnotism has been, and is being used, to control what you see, hear and say, and how it can be used to get you to submit to the ultimate surrender of your mind. How does hypnotism work and what parts of the body and mind are affected by hypnotism? How does hypnotism change your brain chemistry?

The hypnotic interview and the pre-talk before you begin a hypnotic session are discussed, as well as how to induce a subject into a trance state. You will learn the steps and processes needed to work on, and with, a subject or patient in the hypnotic trance state. What signs should a practitioner look for in a subject undergoing hypnotic suggestion to tell if the person is truly hypnotized? Just as important, you will learn the signs to look for if someone is just pretending to be hypnotized. Finally, you'll learn how to hypnotize anyone, anytime, in any place. You will amaze and astound your friends, family and coworkers with your hypnotic skill. You will be the hit at every party or fun event. It's a great way to break the ice
