Have you ever thought that statistics can be used to learn the colours of precipitates? What if I say that you only need a phone, earphones and a mood to learn chemical reactions? This is only a tiny part of what the book has to offer, to make your JEE preparation easier. In his book, The JEE, Sunny talks about the problems as small as being disturbed by whispering students in a study room to significant ones like solving the toughest question of JEE Advanced. He will take you through some of his special techniques, which will increase your efficiency to grasp all concepts that the JEE wants you to know. You will be made to ponder upon all factors that appear as hurdles in your JEE preparation and will be told the way in which you can overcome the obstacles that have been demotivating you. Also, at last, you will know what you should do and not do during those two years that decide the IIT you will walk in.
