Optimizing The Power Of
Action

With over 20 best practices examples, checklists, and other hands-on guidance, Optimizing the Power of Action Learning puts the 'action' in action learning by focusing on the six essential components that make action learning work: the problem, group diversity, a reflective inquiry process, action strategies, a commitment to learning, and the all-important participation of a

Learning Real Time

This next level of decision development is the focus of George Washington University professor Michael Marquardt's book titled, "Optimizing the Power of Action Learning." Soundview recommends this book because Marquardt's concept of Action Learning goes beyond problem solving to also encompass critical business functions of capacity expansion and leadership development.
