**Documentation—Oracle APEX**  
Oracle Application Express (APEX) is a low-code development platform that enables you to build scalable, secure enterprise apps, with world-class features, that can be deployed anywhere. Using APEX, developers can quickly develop and deploy compelling apps that solve real problems and provide immediate value. You won't need to be an expert in a ...

**Oracle APEX**  
One of (or should I say "another of") the very cool features of Application Express (APEX) is that by being a database-centric software installation, patching of the product can be done very efficiently and easily by simply loading fresh versions of the underlying PL/SQL source.. The reason loading PL/SQL source is such a good thing is that when you load PL/SQL source that is unchanged ...
