Logging into APEX Administration. Click the Development tab of the Service Console, and then click APEX. To administer APEX on Autonomous Database, you will need to enter: Password: Password of the ADMIN user (the same password you used to access the service console) Then click the Sign In To Administration button.

The Quick Guide for Getting Started with APEX on ...

Learning Oracle APEX is easy and it won't take long to pick up the basics. However, if you're not sure where to begin, need some reading material, or just need a push along the way, check out these helpful resources.

Learn - Oracle APEX

Oracle APEX Application Development is a fully managed, low-code application development platform for building and deploying modern data-driven applications in Oracle Cloud. Business users and application developers can create enterprise apps 20X faster with 100X less code—without having to learn complex web technologies.

Develop and Deploy Apps | Oracle APEX Application Development

Oracle Application Express (APEX) is a low-code development platform that enables you to build scalable, secure enterprise apps, with world-class features, that can be deployed anywhere. Using APEX, developers can quickly develop and deploy compelling apps that solve real problems and provide immediate value. You won't need to be an expert in a vast array of technologies to deliver sophisticated solutions.

Oracle APEX

Therefore, if you are running Oracle Application Express with Oracle Database 11 g Release 2 or later, you must use the new DBMS_NETWORK_ACL_ADMIN package to grant connect privileges to any host for the APEX_190100 database user. Failing to grant these privileges results in issues with:

Oracle Application Express Release Notes, Release 19.1

APEX 20.2 can also be used with Oracle Database 18c Express Edition (XE), but is supported only through the OTN discussion forum, and not through Oracle Support Services. For more information on upgrading APEX within Oracle XE go to the installation guides for Linux or Windows. We support installation on the following platforms: Linux x86

Oracle Application Express - Downloads

This guide also covers the post-migration phase: the immediate tasks, some best practices for working with Universal Theme, and a list of common problems and solutions encountered during and after the upgrade. Please note that this guide assumes you have a working knowledge of Application Express fundamentals.

Migration Guide - Universal Theme - Oracle APEX

Oracle APEX is a low code development platform enabling you to build sophisticated applications without becoming an expert in a vast array of web technologies. Explore how APEX simplifies and accelerates development, enabling you to focus on the problem at hand, not on repetitive coding.

APEX Service - Oracle APEX

Oracle REST Data Services(formerly APEX Listener) - The Oracle REST Data Services (ORDS) is Java based, can be installed into any J2EE compliant Web Server, and is the preferred option for use with Oracle Application Express. It is a free tool that is fully supported against Oracle WebLogic Server, Oracle Glassfish Server, and Apache Tomcat.
