help narrow the theory/research—effective application/practice gap. This has been the mission from the beginning of this text. As “hard evidence” for this theory/research based text, we can say unequivocally that no other organizational behavior text has close to the number

references. For example, whereas a few texts may have up to 40 or even 50 references for a few chapters, all the chapters of this text average more than twice that amount. This edition continues the tradition by incorporating recent breakthrough

and add to the
evidence on the
theories and

of the field of OB to a comprehensive theoretical framework to structure our text. Instead of the typical potpourri of chapters and topics, there is now the opportunity to have a sound conceptual framework to present our now credible (evidence-based) body of knowledge.

Online Library Organizational

We use the widely recognized, very comprehensive social cognitive theory to structure this text.

We present the background and theory building of this framework in the introductory chapter and also provide a specific model (Figure 1.5) that fits in all 14 chapters. Importantly,

Online Library Organizational

the logic of this 3th
conceptual
framework requires
two chapters not
found in other texts
and the
rearrangement and
combination of
several others. For
example, in the
opening
organizational
context part there is
Chapter 4, “ Reward

Systems,” and in the
cognitive processes
second part, Chapter
7, “Positive
Organizational
Behavior and
Psychological
Capital, ” that no
other text contains. 2)
The second unique
feature reflects our
continuing basic
research program
over the years.

Online Library Organizational

Chapter 7 contains our most recent work on what we have termed “ Positive Organizational Behavior ” and “ Psychological Capital ” (or PsyCap). [The three of us introduced the term “ Psychological Capital ” in our joint article in 2004]. To meet the inclusion
