~~Paper Airplane Instructions — Origami Resource Center~~

This origami paper airplane is quick and easy to make, and it's able to make long, straight flights. The project works best with 6-inch lightweight origami paper squares. Although many origami projects can be folded with scrapbook paper, magazine pages, and other materials, the airplane needs a lightweight paper to fly well. Thicker paper is also more difficult to fold, which makes it more likely that your plane will be asymmetrical and end up taking a quick nosedive upon launch.

Dana is a freelance writer and designer who specializes in origami and paper crafts. The classic paper airplane using a handful straight folds on a standard 8.5- by 11-inch sheet of paper is the one that most of us learn how to fold as children. It is called a dart airplane, due both to its shape and flight pattern.
