The roots of the Arab–Israeli conflict have been attributed to the support by Arab League member countries for the Palestinians, a fellow League member, in the ongoing Israeli–Palestinian conflict, which in turn has been attributed to the simultaneous rise of Zionism and ...

Arab–Israeli conflict - Wikipedia

Palestine and the Arab-Israeli Conflict constitutes a comprehensive and detailed account of the events preceding and following from the formation of the state of Israel and the intercommunal tensions that define these events. Overall, Charles D. Smith's style is dry and to-the-point, analyzing the flow of history one set of years at a time.

This course introduces students to the causes and issues involved in the Arab-Israeli conflict from the rise of Zionism to the present. It covers both the Arab-Israeli and the Palestinian-Israeli tracks of the conflict, the plight of 19th/20th Century European Jews and the rise of Zionism; the British Mandate (1920 – 1948); the first Arab-Israeli War (1948); the 1956 Suez Crisis; the 1967 Six-Day War; the 1973 Yom Kippur/October War; the Camp David Accords 1979; the Israeli invasion of the ...

ARAB2066 Palestine and the Arab-Israeli Conflict

The conflict between Palestinian Arabs and Zionist (now Israeli) Jews is a modern phenomenon, dating to the end of the nineteenth century. Although the two groups have different religions (Palestinians include Muslims, Christians and Druze), religious differences are not the cause of the strife. The conflict began as a struggle over land.

In addition, the Arab states have largely grown tired of and frustrated by the continuing Israeli-Palestinian conflict. Just like Egypt and Jordan before, they came to accept Israel ' s ...

The gold standard of texts on the history of the Arab-Israeli conflict Palestine and the Arab-Israeli Conflict provides a comprehensive, balanced, and accessible narrative of a complex historical topic. The ninth edition explores the relationships among peoples and events and guides students through the often complex web of circumstances, parties, and personalities that constitute the story of Palestinian-Israeli relations. The narrative is supported by more than 40 primary documents that highlight perspectives from all sides of the struggle. Throughout the book, the author examines how underlying issues, group motives, religious and cross-cultural clashes, diplomacy and imperialism, and the arrival of the modern era shaped this volatile region. Maps, photographs, chronologies, public opinion polls, and discussion questions help facilitate student understanding. A fully updated final chapter makes this the most current history of the topic.

During the British Mandate for Palestine (1922–1948), Arabs and Jews repeatedly used the law to gain leverage and influence international opinion, especially in three dramatic and largely forgotten trials involving two issues: the interplay between conflicting British promises to the Arabs and Jews during World War I, and the parties ' rights and claims to the Wailing Wall. Focusing on how all three parties – Arab, Jewish, and British – used the law and the legal process to advance their objectives during the Mandate years, this volume reveals how the parties availed themselves – with varying degrees of success – of the law and the legal process. The book examines various legal arguments they proffered, and how that early tendency to resort to the law as a tool, a resource, and a weapon in the conflict has continued to this day. The research relies almost entirely on primary source documents, including transcripts of the public and secret testimony before the Shaw, Lofgren, and Peel Commissions, diaries, letters, government files, and other original sources. This study explores the origins of many of the fundamental legal arguments in the Arab–Israeli conflict that prevail to this day. Filling a gap in research, this is a key text for scholars and students interested in the Arab–Israeli conflict, Lawfare, and the Middle East.

The Arab-Israeli conflict has proven to be one of the most protracted and bitter struggles of modern times, and has been extraordinarily resilient in the face of all efforts to resolve it. Written by a distinguished team of authors comprising an Israeli, a Palestinian, and an Egyptian presenting a broader Arab perspective, this textbook offers a balanced and nuanced introduction to this highly contentious subject. This innovative approach provides: • an essential overview of the key developments in the history of the conflict • a sense of the competing narratives that the principle protagonists have developed regarding these developments • a unique analytical framework through which the major developments can be understood • suggested further reading and links to key historical documents to support in-depth exploration of the subject. This is essential reading for students and others wishing to understand the history and politics of the Arab-Israeli conflict and its pivotal role in the Middle East.

In this fully revised new edition, Kirsten Schulze brings us to a new understanding of the causes, course and consequences of the Arab-Israeli Conflict. Schulze analyses the dynamics of the violence and explores the numerous attempts at resolving the conflict. She assesses why, in the cases of Israel-Egypt in 1978 and Israel-Jordan in 1994, negotiations succeeded in bringing about a lasting peace and why, in the cases of Israel, and the Palestinians, Syria and Lebanon, they failed to do so. Written in a clear and accessible style, this fully updated second edition: · Traces the origins of the conflict from their first intellectual roots in the 19th century. · Examines the actions and aims of the competing nationalist movements during the period of the British Mandate which led to the creation of the state of Israel. · Outlines and analyses each of the Arab-Israeli conflicts from the creation of the state of Israel in 1948 to the 2006 Lebanon war and the on-going, second Palestinian uprising With a diverse collection of documents and a Chronology, Glossary, Guide to Further Reading, and a Who ' s Who summarizing the careers and contributions of the main figures, this book is absolutely vital to understanding the current Israeli-Palestinian violence, the intra-Palestinian rift between Hamas and Fatah, and why the Arab-Israeli conflict has become the centre of Muslim politics, both violent and non-violent, across the world.

This is a dual narrative of Israeli and Palestinian history, where readers can track each against the other, noting both where they differ as well as where they correspond. This format reveals surprising juxtapositions and allows readers to consider and process the very different viewpoints and logic of each side of the Israeli-Palestinian conflict.

"The conflict between Palestine and Israel is one of the most highly publicized and bitter struggles of modern times, a dangerous tinderbox always poised to set the Middle East aflame, and to draw the United States into the fire. In this volume the author illuminates the history of the problem, reducing it to its very essence. He explores the Palestinian-Israeli dispute in twenty-year segments, to highlight the historical complexity of the conflict throughout successive decades. Each chapter starts with an examination of the relationships among people and events that marked particular years as historical stepping stones in the evolution of the conflict, including the 1897 Basel Congress, the 1917 Balfour Declaration and British occupation of Palestine, and the 1947 U.N. Partition Plan and the war for Palestine. Providing an exploration of the main issues, the author explores not only the historical basis of the conflict, but also looks at how and why partition has been so difficult and how efforts to restore peace continue today"--OCLC

The author answers basic questions about Israel and Israelis, Palestine and Palestinians, the US and the Middle East, Zionism and anti-Semitism; about complex issues ranging from the Oslo peace process to the election of Hamas. Her answers point the way toward understanding of the long standing Palestinian-Israeli conflict.

The Palestine War has been by far the most important military encounter in the history of the Arab-Israeli conflict. This book examines the origins of the war and its progression through two distinct stages: the guerrilla warfare between the Arab and Jewish communities of Mandatory Palestine, and the conventional inter-state war between the State of Israel and the invading Arab armies. In doing so it assesses the participants, their war aims, strategies and combat performance. Finally, it examines the reasons for Israel's success in the face of seemingly impossible odds and for the failure of the Arab nations to turn their military and numerical superiority into victory on the ground.

The Arab-Israeli conflict is one of the greatest threats to world peace today. Yet for all the importance and passion of this conflict very little is actually known about the story behind the headlines. Behind each confrontation and each act of terrorism is a long and deep story. This primer on the Arab-Israeli conflict, first published in 1989, examines the real stories behind the conflict and separates fact from fable. By carefully documenting, each claim and counter-claim, many widely-held beliefs are unmasked as myths.
