Farming is a business, as well as a way of life. Whole Farm Management is a comprehensive guide developed by the Small Farms Program at Oregon State University to help aspiring and beginner farmers make smart business decisions to ensure lasting success. In clear, accessible language, this book covers every essential step, from developing a strategic plan to acquiring equipment, establishing infrastructure, finding markets, budgeting, managing day-to-day operations, and selecting a business structure for long-term viability. The emphasis throughout is on using sustainable agricultural systems and managing the whole farm, whether raising grass-based livestock, perennial food crops, or annual crops such as flowers. Case studies of successful farms, along with guidance and solutions to common problems from long-time farmers, round out this essential handbook.

Equine Law and Horse Sense is designed for people, businesses, and organizations in the horse industry and for the lawyers who serve them.

Rangelands comprise between 40 and 50 percent of all U.S. land and serve the nation both as productive areas for wildlife, recreational use, and livestock grazing and as watersheds. The health and management of rangelands have been matters for scientific inquiry and public debate since the 1880s, when reports of widespread range degradation and livestock losses led to the first attempts to inventory and classify rangelands. Scientists are now questioning the utility of current methods of rangeland classification and inventory, as well as the data available to determine whether rangelands are being degraded. These experts, who are using the same methods and data, have come to different conclusions. This book examines the scientific basis of methods used by federal agencies to inventory, classify, and monitor rangelands; it assesses the success of these methods; and it recommends improvements. The book's findings and recommendations are of interest to the public; scientists; ranchers; and local, state, and federal policymakers.
