Essentially, a compressed file is a sort of archive that contains one or more files that have been reduced in size. Since these file are smaller, they can be stored without taking up much space, or transferred at higher speeds over the Internet.

File Compression: An Explanation by WinZip Computing

A partition is an operating system-specific portion of storage for a file system. A single storage device (e.g. a physical disk-drive, flash memory, CD-ROM) may contain multiple partitions. The object, if any, will reside on the partition named by some ancestor of the absolute form of this pathname.
