An incisive look
at the
intellectual and
cultural history
of free

its influence on
American

Throughout the
twentieth
century, "free

been a contested
keyword in
American
politics, and
the cornerstone
of a
conservative

Download Free Free The

American philosophy that
seeks to limit
government

Lawrence B.
Glickman shows
how the idea
first gained
traction in
American
discourse and
was championed

by opponents of
the New Deal.
Those
politicians,
believing free
enterprise to be
a fundamental
American value,
held it up as an
antidote to a
liberalism that
they maintained
would lead
toward

statism. Tracing
the use of the
concept of free
enterprise,
Glickman shows
how it has both
constrained and
transformed
political
dialogue. He
presents a
