Pharmacology for Nurses : Michael Adams : 9780133026184

Organized by body systems (units) and diseases (chapters), PHARMACOLOGY FOR NURSES: A PATHOPHYSIOLOGIC APPROACH, 4/e provides complete information on the drug classifications used to treat each disease class. Students can easily locate all relevant anatomy, physiology, pathology, and pharmacology in the same chapter where each drug is discussed.

Pharmacology for Nurses: A Pathophysiologic Approach Plus ...

Pharmacology for Nurses: A Pathophysiologic Approach simplifies pharmacology by linking it tightly to therapeutic goals. Instead of learning about drugs in isolation, students approach them by body systems and diseases in order to draw connections between A&P, diseases, and drug interventions.

For courses in pharmacology. A holistic approach to pharmacology essentials Pharmacology for Nurses: A Pathophysiologic Approach simplifies pharmacology by linking it tightly to therapeutic goals. Instead of learning about drugs in isolation, students approach them by body systems and diseases in order to draw connections between A&P, diseases, and drug interventions. Engaging features and exercises relate pharmacology to nursing care, while discussion of alternative therapies and cultural and lifespan considerations give further context for clinical decisions. The 6th edition adds the most current pharmacotherapeutics and advances in pathophysiology. Also available with MyLab Nursing By combining trusted author content with digital tools and a flexible platform, MyLab personalizes the learning experience and improves results for each student. MyLab Nursing helps students master key concepts, prepare for success on the NCLEX-RN® exam, and develop clinical reasoning skills. Note: You are purchasing a standalone product; MyLab Nursing does not come packaged with this content. Students, if interested in purchasing this title with MyLab Nursing, ask your instructor to confirm the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.

Effectively learning pharmacology requires students to clearly see the connection between pharmacology, disease and patient care. Pharmacology for Nurses, 3e i (this is the standalone book) is structured to present pharmacology and pathology together, so students can more easily grasp the interrelationship between these subjects and provide a holistic perspective to patient care. A prototype approach, easy to follow presentation and extensive pedagogical aids enable students to understand key concepts and apply essential components of nursing care to drug therapy. If you want the book and access code you need to order: 0131392468 / 9780131392465 Pharmacology for Nurses: A Pathophysiologic Approach and MyNursingLab Student Access Code Card Package Package consists of 0135089816 / 9780135089811 Pharmacology for Nurses: A Pathophysiologic Approach 0135104319 / 9780135104316 MyNursingLab Student Access Code Card Pharmacology for Nurses: A Pathophysiologic Approach

Using a strong pathophysiology prototype approach to place drugs in context with how they are used therapeutically, this book gives readers a clearer picture of the importance of pharmacology to disease and ultimately to patient care. This holistic perspective to patient care is organized according to the body systems and diseases with complete information on the drug classifications used to treat the diseases. Easy to follow presentation, extensive pedagogical aids enable students to identify key ideas, understand concepts and apply essential components of anatomy, physiology and pathology relevant to drug therapy. The volume comprehensively covers core concepts in pharmacology, pharmacology and the nurse-patient relationship, the nervous system, the cardiovascular and respiratory systems, the immune system, the gastrointestinal system, endocrine and genitourinary systems, the integumentary system, musculoskeletal system, and eyes/ears.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. For pharmacology courses in nursing programs Help students think like nurses and understand how pharmacology relates to patient care When drugs are learned in isolation from their associated diseases, students have difficulty connecting pharmacotherapy, pathophysiology, and nursing care. Pharmacology for Nurses: A PathophysiologiApproach, Fifth Edition, helps students master pharmacology by tightly linking it to therapeutic goals and patient wellness. Organized by body systems and diseases, it places drugs in context with how they are used therapeutically. Students can then easily locate relevant anatomy, physiology, pathology, and pharmacology in the same chapter. Nursing Process Application features clearly relate pharmacology to key nursing processes. Features highlighting complementary therapies, community-oriented and evidence-based practices, and lifespan considerations help students make connections to nursing practice. To give readers a clear picture of the holistic nature of pharmacology, the Fifth Edition reflects current pharmacotherapeutics and advances in understanding disease. Also available with MyNursingLab® MyNursingLab is an online homework, tutorial, and assessment program designed to engage students in the Pharmacology course and improve results. Its guided learning path is proven to help students think like a nurse as they move beyond memorization to true understanding through application. NOTE: You are purchasing a standalone product; MyNursingLab does not come packaged with the content. If you would like to purchase both the physical text and MyNursingLab, search for ISBN:0134460057 / 9780134460055 Pharmacology for Nurses: A Pathophysiologic Approach Plus MyNursingLab with Pearson eText -- Access Card Package, 5/e. That package consists of: 013425516X / 9780134255163 Pharmacology for Nurses: A Pathophysiologic Approach, 5/e 0134449010 / 9780134449012 MyNursingLab with Pearson eText -- Access Card -- for Pharmacology for Nurses: A Pathophysiologic Approach

This up-to-date text helps nursing students master pharmacology by tightly linking it to therapeutic goals and patient wellness. Organized by body systems (units) and diseases (chapters), PHARMACOLOGY FOR NURSES: A PATHOPHYSIOLOGIC APPROACH, 4/e provides complete information on the drug classifications used to treat each disease class. Students can easily locate all relevant anatomy, physiology, pathology, and pharmacology in the same chapter where each drug is discussed. Exclusive Nursing Process Focus features clearly and concisely relates pharmacotherapy to patient assessment, nursing diagnoses, planning patient outcomes, implementing patient-centered care, and evaluating the outcomes. This new Fourth Edition links pharmacology to patient care through exceptionally accurate, attractive graphics, rich media resources, extensive self-assessment tools, and features covering complementary medicine; diverse patient/lifestyle considerations; and evidence-based practice. It has been thoroughly updated to reflect current pharmacologic drugs, drug classes, processes, mechanisms, and warnings; and the newest QSEN competencies and NCLEX question formats.

Carefully designed to provide an integrated introduction to both the biology of disease and the therapeutic agents that are used to manage them, this book considers the underlying pathology of many common illnesses and diseases but by focusing on those conditions which have a pharmacological intervention is able to provide nurses with a broader understanding of bioscience that reflects care given in practice. It covers the basics of pharmacology, the core pathological concepts of inflammation, infection and cancer as well as a systems-based consideration of the pathophysiology and relevant pharmacology of common disorders. Providing the ideal starting point for student nurses to develop a robust, integrated knowledge of human disease and pharmacology, this book will enable them to provide care based on up-to-date knowledge of this important subject.

Pathophysiology and Pharmacology in Nursing has been carefully designed to provide an integrated introduction to both the biology of disease and the therapeutic agents that are used to manage them. It covers the basics of pharmacology, the core pathological concepts of inflammation, infection and cancer, as well as a systems based consideration of the pathophysiology and relevant pharmacology of common disorders. New to the second edition: All content updated and mapped to the 2018 NMC standards Two new chapters on ' Mental health conditions ' and ' Renal conditions. The ideal starting point for student nurses to develop a robust, integrated knowledge of human disease and pharmacology, enabling them to provide care that is based on up-to-date knowledge of this important subject.
