Digital Medium Format Cameras | Aerial Cameras | Phase One ...

High-resolution Aerial Cameras and Solutions for Large Surface Coverage of Aerial Mapping, Surveying, and Inspection Applications. Phase One Industrial provides innovative solutions for precise and simplified aerial mapping, surveying, and inspection missions. With an easy-to-integrate product range, we provide accurate, and consistent aerial data that enables an easy execution of photogrammetry projects with high-resolution images for 2D and 3D applications.

Phase One Industrial

Phase One 280MP Aerial Solution. The 280MP Aerial Solution offers the highest image capture rate and dynamic range, increasing overall quality and accuracy of the final photogrammetric products. It provides a large format option, that is compact and lightweight system for use in a wide range of aircraft. The 280MP Aerial solution comprises of iX Controller, GNSS/IMU receiver (POS AV series), Somag gyro-stabilized mount (DSM 400), the Phase One flight planning and management software iX Plan ...

Large-format Imagery | 280 megapixel | Phase One Industrial

Phase One Industrial, a leading provider of aerial imaging solutions, designed a fully integrated and powerful drone solution with DJI M600 and M600 PRO aerial platforms that expands the operational capabilities of our customers.

Phase One Industrial and Aerial Solutions

Phase One Industrial 's cameras provide invaluable aerial-imagery data that enables predictive maintenance for inspection missions of power lines, wind turbines, roads, bridges, and pipelines as well as forestry and agriculture. Our solutions increase the speed and precision of data collection and reduce the costs and the risky operations of ground teams.

UAV Cameras | Phase One UAV

Focusing on the Small Details, Seeing the Large Picture. Phase One Industrial offers precision-driven solutions that simplify mapping and surveying processes. With a diverse and easy-to-integrate line of products, we provide unlimited, accurate, and reliable aerial data that enables users to effortlessly execute photogrammetry and mapping missions, capture high-resolution images, and create 2D and 3D maps.

Mapping Camera - Phase-One industrial Cameras

Camera type. Medium-format camera for aerial imaging. Lens mount. Phase One RS. Data interfaces. USB3, Ethernet 10G. I/O interfaces. Trigger, Mid exposure, Ready, Serial. HDMI. 1920x1080 60p. Data storage. XQD card. Synchronization speed. 50 microseconds in an array of cameras. Raw file compression 14bit. IIQ large: 150MB. IIQ small: 100MB. IIQ large: 100MB. IIQ small: 65MB

3D Mapping Camera - Phase-One industrial Cameras

Phase One 150MP and 100MP Aerial Solutions are fully integrated systems based on the iXM-RS150F and the iXM-RS100F high-resolution metric cameras respectively.

Phase One Industrial Aerial Solutions - Phase One Cameras ...

In order to diversify its revenue Uralgeoinform, decided to develop the aerial survey capabilities in a large territory of the Russian Federation. After an economic evaluation with leased equipment yielded positive results, the company acquired the Phase One 190MP Aerial Solution. Aerial Solutions Provide a Diversified Revenue Stream.

Uralgeoinform – Phase One Aerial ... - Phase One Industrial

Phase One Industrial developed the iXM series – revolutionary and uniquely designed cameras for UAV-based aerial imagery that redefine the boundaries of technological innovation. The iXM 100MP and iXM 50MP are high-productivity metric cameras with a range of specially designed RSM lenses.

Phase One Industrial and Acecore Announce Integration of ...

Phase One Industrial medium-format cameras with 150 mm RS lens provides a resolution of up to 0.3mm (from 10m flight height) and 0.9mm (from 35m height, flown at HHLA). Surveying Systems in Operation By using a drone harbor cranes can remain in operation while undergoing inspection PHASE ONE DRONE SOLUTION

AeroInspekt - Phase One Industrial

Draganfly had been working with Phase One Industrial for a year and recommended their 100-megapixel camera along with the MicaSense RedEdge 3. Phase One's 100MP solution provided a significant resolution increase over previously used cameras and fit the size and weight envelope of many commercially available UAV systems.

Advances Aerial Drone Data Collection - Phase One Industrial

Testing Times – Phase One Industrial iXM-100 Camera is Proven Best for UAV Bridge Inspection Keystone Aerial tested three aerial cameras integrated with its UAV to see which provided best results during the Tacony-Palmyra Bridge Inspection Project. There was a clear winner – from 130ft away! Reducing Costs and Safety Concerns

Keystone Aerial Surveys - Phase One Industrial

The Phase One iXU cameras are the world's smallest and lightest integrated digital medium format aerial cameras. The Phase One iXU 180, iXU 160 and iXU 160 Achromatic cameras are built to provide high resolution in a small and light camera. The CCD sensor offers up to 10,328 cross track coverage in a camera that weighs less than 950 grams.

Phase One iXU/iXU-RS Aerial Camera Series □ Phase One ...

The Phase One 150MP camera with a Linos inspec.x L 4.0/100mm lens, and a modified Phase One copy stand was the preferred choice after several other camera demonstrations and test runs. With 150 megapixels, the 1100 dpi resolution was confirmed not only in theory but also in practical application.

Aerial Photography Archiving - Phase One Industrial

Phase One Industrial Aerial Imaging: Outstanding Productivity and Affordability On-demand Webinar | Free During this webinar Phase One Industrial will cover all the benefits of the complete large format image solution, through to the single aerial cameras for manned aircraft, UAVs and ground solutions.

Phase One Industrial Aerial Imaging: Outstanding ...

The Phase One Industrial camera was integrated with the aircraft's Novatel dual frequency GPS/INS system, operating with a Honeywell IMU, enabling each photograph to be stamped with precise aircraft position, altitude, and roll/pitch/yaw.
