with learning objectives to serve as guide to readers. Discussion questions and problem exercises are not included in this reference material. This study guide can be effectively use together with a workbook which is available in the university where one of the authors is currently affiliated. This reference material is not intended to replace existing accounting textbooks written by famous authors whom we have respectfully cited and given credit in this guide. The user of this study guide will walk through the accounting process in a rational, concise and "easy to understand" manner. With the teacher's expert guidance, plus this study guide to learning the basics in accounting, the student will undoubtedly appreciate the fundamentals of accounting. Our desire is to open the eyes of students that studying basic accounting is both easy and rewarding.

The accounting profession has a successful, 100-year tradition of self-regulation, which has contributed to the most respected financial reporting system in the world. This is a tradition to which accountants have been and are deeply committed. To maintain this commitment to excellence and support public confidence in the security markets, accountants have always responded to valid criticisms and addressed market changes and environmental issues that demanded their scrutiny. With this committment in mind, the profession should diligently work to improve the profession's quality review (as required in the new Philippine Accountancy Law) and disciplinary process as it relates to auditors of Securities and Exchange Commission (SEC) registrants. The descriptive method of research was utilized in this study. Primary sources

The data were treated statistically using percentage, likert scale, weighted arithmetic mean and rank.

This guide is designed to assist all those who are responsible for providing or overseeing formal education or practical experience that forms part of the initial professional development of aspiring professional accountants, or the continuing professional development of professional accountants. It is particularly relevant to professional accountancy organizations. It is also intended for policy makers and regulators who determine which organizations are licensed to certify professional accountants and related specializations, for example, audit professionals. The purpose of the guide is to □ increase understanding of the gap between the current skills of many accountants in some regions and the skills that are relevant in increasingly digitized and globalized economies; □ convey the essential features of Competency-Based Accounting
