Jeff Moersfelder, the greenhouse manager at the U.S. Department of Agriculture's Wolfskill Experimental Orchard, which sits on University of California, Davis, said Levin managed to send 90 varieties of pomegranates to Davis during 1999-2000. Moersfelder is positive that these varieties hold a lot of potential.

Pomegranate – A Variety of Fruits

Pomegranate developing fruit, cv. Parafianka. photo by Jeff Moersfelder, Nat'l Clonal Germplasm Repository. Spanish missionaries first introduced pomegranates in 1769 to the region now known as California, before it was incorporated into the United States. Commercial pomegranate production in California began in 1896 with an initial shipment of cuttings from Florida (LaRue 1980).

Pomegranate - Fruit & Nut Research & Information Center

Jeff Moersfelder brought the pomegranate samples to the meeting, but didn't have enough to taste. He does hold a tasting every year at the beginning of November at the Wolfskill Experimental Orchard in Davis. To get information, call Moersfelder at (530) 752-2747.
