Popol Vuh

Popol Vuh, the QuichꞌAꞌMayan book of creation is not only the most important text in the native language of the Americas, it is also an extraordinary document of the human imagination. It begins with the deeds of Mayan Gods in the darkness of a primeval sea and ends with the radiant splendor of the Mayan Lords who founded the QuichꞌAꞌ Kingdom in the Guatemalan highlands. Originally written in Mayan hieroglyphs, it was translated into the Roman alphabet in the 16th century. The new edition of Dennis Tedlock’s unabridged, widely praised translation includes new notes and commentary, newly translated passages, newly deciphered hieroglyphs, and over 40 new illustrations.

The breaking of the Maya code has completely changed our knowledge of this ancient civilization, and has revealed the Maya people's long and vivid history. Decipherment of Maya hieroglyphic writing has progressed to the point where most Maya written texts—whether inscribed on monuments, written in the codices, or painted or incised on ceramics—can now be read with confidence. In this practical guide, first published in 2001, Michael D. Coe, the noted Mayanist, and Mark Van Stone, an accomplished calligrapher, have made the difficult, often mysterious script accessible to the nonspecialist. They decipher real Maya texts, and the transcriptions include a picture of the glyph, the pronunciation, the Maya words in Roman type, and the translation into English. For the second edition, the authors have taken the latest research and breakthroughs into account, adding glyphs, updating captions, and reinterpreting or expanding upon earlier decipherments. After an introductory discussion of Maya culture and history and the nature of the Maya script, the authors introduce the glyphs in a series of chapters that elaborate on topics such as the intricate calendar, warfare, royal lives and rituals, politics, dynastic names, ceramics, relationships, and the supernatural world. The book includes illustrations of historic texts, a syllabary, a lexicon, and translation exercises.

"Never before has anyone focused so successfully on the literary genius of these ancient authors. Tedlock is so much more than a translator, placing selected Mayan works in a continuous narrative that skillfully links authors from the third century to the sixteenth century with writers of today. An extremely important, original, and innovative work."—Martha J. Macri, coauthor of The New Catalog of Maya Hieroglyphs, Volumes 1 and 2, and Director of the Maya Hieroglyphic Database Project, University of California, Davis "A stunning recreation of the intellectual world of the ancient Maya, the only fully literate people of pre-Columbian America. Informed by the latest research on Maya hieroglyphic writing, art, and mythology, this beautifully illustrated and wonderfully readable work by an outstanding scholar should be on the bookshelf of all those interested in this fascinating civilization."—Michael Coe, author of Breaking the Maya Code "This book is, like the ancient Maya texts and images it explores, a work of art."—David Freidel, co-author (with Linda Schele and Joy Parker) of Maya Cosmos: Three Thousand Years on the Shaman ' s Path "Literally breathtaking. A truly unprecedented gathering and translation of written Mayan texts. Tedlock is making visible, for the first time, a Mayan literature in comprehensible, meaningful form. " "—Jerome Rothenberg, poet, author/editor of Technicians of the Sacred and Poems for the Millennium

This authoritative work is the first visual dictionary of Maya glyphs published since the script's complete deciphering, offering a much-needed, comprehensive catalogue of 1100 secured glyphs. Each entry includes the illustrated glyph, its phonetic transcription, Mayan equivalent, part of speech, and meaning. About the Author John Montgomery is an illustrator, epigrapher, writer, and PhD candidate in the field of Pre-Columbian Art at the University of New Mexico. He also teaches art history at the South-western Indian Polytechnic Institute in Albuquerque. A long and varied experience in Central America first inspired his interest in the ancient Maya. His glyphic illustrations based on a lifetime of involvement with Maya glyph decipherment. He lives in Albuquerque, New Mexico.

The Quiche state in Guatemala flourished for several centuries before being destroyed by the conquistadors in 1524. During the early years of the ensuing period, the Quicheans recorded their past history and legends, writing in their own language but using the Latin alphabet. Many of these chronicles have survived, each illuminating various aspects of pre-conquest Quichean culture. Organized in six sections, Quichean Civilization categorizes all the documented sources describing the Quiche Maya. I. Introduction II. Native Documents III. Primary Spanish Documents IV. Secondary Sources V. Modern Anthropological Sources VI. Popol Vuh

Popol Wujis considered one of the oldest books in the Americas. Various elements of Popol Wuj have appeared in different written forms over the last two millennia and several parts of Popol Wuj likely coalesced in hieroglyphic book form a few centuries before contact with Europeans. Popol Wuj offers a unique interpretation of the Maya world and ways of being from a Maya perspective. However, that perspective is often occluded since the extant Popol Wuj is likely a copy of a copy of a precontact Indigenous text that has been translated many times since the fifteenth century. Reading Popol Wujoffers readers a path to look beyond Western constructions of literature to engage with this text through the philosophical foundation of Maya thought and culture. This guide deconstructs various translations to ask readers to break out of the colonial mold in approaching this seminal Maya text. Popol Wuj, or Popol Vuh, in its modern form, can be divided thematically into three parts: cosmogony (the formation of the world), tales of the beings who inhabited the Earth before the coming of people, and chronicles of different ethnic Maya groups in the Guatemala area. Examining thirteen translations of the K 'iche ' text, Henne offers a decolonial framework to read between what translations offer via specific practice exercises for reading, studying, and teaching. Each chapter provides a close reading and analysis of a different critical scene based on a comparison of several translations (English and Spanish) of a key K 'iche ' word or phrase in order to uncover important philosophical elements of Maya worldviews that resist precise expression in Indo-European languages. Charts and passages are frontloaded in each chapter so the reader engages in the comparative process before reading any leading arguments. This approach challenges traditional Western reading practices and enables scholars and students to read Popol Wuj—and other Indigenous texts—from within the worldview that created them.
