There are three basic parts to a lab report: pre-lab, in-lab, and post-lab. In this document, I've written some helpful tips that might help you through your lab-report woes. I won't include everything you have to

Acces PDF Pre Lab Questions

do (you should look on VOH for the report guidelines), but just a few key ideas.

~~Tips on Writing Lab
Reports—University of
California ...~~

In order to help students frame the lab experiment, consider the main question your students should become able to answer: What

Access PDF Pre Lab Questions

question is this lab
experiment answering?
How will your data
answer this question?
How will you collect
this data? How will you
minimize ambiguity and
control variables? Here
are some of the topics
you might ask your
students to think about
in a pre-lab exercise:
concepts, theory, and
models
