The history of sport in socialist Yugoslavia is a peculiar lens through which to examine the country's social, cultural and political transformations. Sport is represented as one of the most popular and engaging cultural phenomena of social life. Sport both embodied the social dynamics of the socialist period as well as revealing questions of the everyday lives of the Yugoslav people. Ultimately, sport was closely intertwined with the country's overall destiny. This volume offers an introduction into the myriad social functions that sport served in the Yugoslav socialist project. It illustrates how sport was central to the establishment of Yugoslavia's physical and leisure culture in the early post-Second World War period, an international promotional tool for Yugoslav communists championing the ideological superiority of the 'Brotherhood and Unity' and the Non-Aligned Movement, as well as a social field in which the ideological contradictions of Yugoslav socialism became increasingly apparent. The chapters expand the existing knowledge of the processes that defined Yugoslav sport and contribute to a more nuanced understanding of socialist Yugoslavia in the years between 1945 and 1991. This book was originally published as a special issue of *The International Journal of the History of Sport*.

Winner of the Lord Aberdare Literary Prize for 2018 Even before Tito's Communist Party established control over the war-ravaged territories which became socialist Yugoslavia, his partisan forces were using football as a revolutionary tool. In 1944 a team representing the incipient state was dispatched to play matches around the liberated Mediterranean. This consummated a deep relationship between football and communism that endured until this complex multi-ethnic polity tore itself apart in the 1990s. Starting with an exploration of the game in the short-lived interwar Kingdom, this book traces that liaison for the first time. Based on extensive archival research and interviews, it ventures across the former Yugoslavia to illustrate the myriad ways football was harnessed by an array of political forces. Communists purposefully re-engineered Yugoslavia's most popular sport in the tumult of the 1940s, using it to integrate diverse territories and populations. Subsequently, the game advanced Tito's distinct brand of communism, with its Cold War-era policy of non-alignment and experimentation with self-management. Yet, even under tight control, football was racked by corruption, match-fixing and violence. Alternative political and national visions were expressed in the stadiums of both Yugoslavias, and clubs, players and supporters ultimately became perpetrators and victims in the countries' violent

demise. In Richard Mills' hands, the former Yugoslavia's stadiums become vehicles to explore the relationship between sport and the state, society, nationalism, state-building, inter-ethnic tensions and war. The book is the first in-depth study of the Yugoslav game and offers a revealing new way to approach the complex history of Yugoslavia.

An original insight into the link between corruption and organised crime and sport, this book demonstrates that corruption and the mafia presence in Italian soccer reflect the Italian power system itself.
