People manage projects, not software. [Managing People in Projects](#) provides a focused, rational method for improving the performance of project managers and those working with and for them. You will learn who to involve in projects — and when and how to utilize them. You ' ll also determine how to set expectations, track and analyze performance, and provide feedback.

[Managing People in Projects - People Management ...](#)

The people, of course, but more specifically how the people behave; and that means the team members, stakeholders and the project manager. Successful project managers do not interact with people only when a process demands they do, but build relationships with everyone involved on the project; whether that is by the coffee machine or in a more formal setting.

[Project plan](#) Is everyone following the project plan? In an article by [projecttimes.com](#) the first point in creating a project plan is to explain the project to key stakeholders, to provide direction for a project. Going off course can dramatically hinder a project and in some cases can even be dangerous.

[Get your team to care | APM](#)

Definition. Project management is the application of processes, methods, skills, knowledge and experience to achieve specific project objectives according to the project acceptance criteria within agreed parameters. Project management has final deliverables that are constrained to a finite timescale and budget. A key factor that distinguishes project management from just 'management' is that it ...

[What is project management? | APM](#)

Everyone manages something. Individuals manage themselves while project managers manage projects and CEO s manage organizations. On the surface management is pretty clear - take charge and get it done. However, in practice, issues arise around how much control, domination, caretaking and decision-making one should do and how best to do it.

[Project Management | Managing People and Expectations](#)

The short answer is - yes, project management is about managing people. Or rather, it's about influencing people to help you get done what needs to be done. That aspect of it is actually the most important part of project management. You can find stories everywhere about PM's that are technically brilliant, but no one wants to work with them.

Project Management is People Management: How Leading ...

PROJECT MANAGEMENT, PEOPLE MANAGEMENT, BUSINESS MANAGEMENT Business leaders often overlook an important asset in their organisation when it comes to restructuring or managing transformational change.

Project Management, People Management, Business Management

As a PM, you know that project management almost always involves a lot of “ people management ” . However, not every effective project manager has a particularly charismatic personality. For example, you might be a great strategist, highly focused, patient, organized, self-disciplined, and determined to succeed.

Project management is about people management

If your answer is Project Management then probably you may face more challenges, fire-fighting, and issues among the team in your project. But if your answer is People Management, most probably you are on track to complete your project with less or manageable issues. The project team respects you and the stakeholders admire your ability.

Project Management or People Management? - Gina Abudi
