This concise first edition offers hands-on guidance for identifying and treating the most commonly seen knee pathologies in regenerative orthopedic medicine. Convenient as a study source for medical students, its many photographs and illustrations will also serve as a useful clinical reference for young surgeons, residents, nurses, and physician assistants. Each of the many topics are covered in depth and are designed to educate medical students and steer them towards formulating excellent diagnoses and treatment plans. As a further aid, using 3-Dimensional images, the anatomy of the knee is discussed in detail. There is a section devoted to case studies that further illustrate common knee problems and their treatment. Recommended reading lists complete the chapters and provide direction for readers interested in delving deeper into particular topics. The author is an expert in his field of orthopedic regenerative medicine with 10 years of experience and over 20,000 procedures, making the book a dependable source for timely, clinically relevant information.

Equips students with essential industry-relevant knowledge through in-depth explanations, practical applications, examples, and exercises.

Improve your most important relationships—starting today. At the end of the day in this all-too-short life, what matters most is relationships. Spouse, parent, child, friend—whoever your closest loved ones are, they warrant more than a passing glance; they deserve an intentional and meaningful relationship with you. The One Month to Love thirty-day challenge is the greatest adventure you ' ll ever take, helping you deepen the important relationships in your life. Authors Kerry and Chris Shook use timeless, biblical wisdom to walk through three stages of relationships: First Glance, Second Look, and Lasting Love. Many of us have launched into the exciting First Glance phase. When we then tiptoe into the Second Look, reality sets in, and often friendships weaken, families suffer, marriages crack. Now learn how to experience the deep, satisfying lifelong relationships of lasting love. All it takes is one chapter a day. If your marriage is broken, restoration is possible. If your friendship is frail, a fresh start is possible. Even if you ' ve made mistakes in all your relationships, lasting love is still possible. “ With God all things are possible ” (Matthew 19:26). Includes a weekly focus and daily readings to guide you through the process.

If you think Knoppix is just a Linux demo disk, think again. Klaus Knopper created an entire Linux distribution on a bootable CD (and now a DVD) so he could use his favorite open source tools on any computer. This book includes a collection of tips and techniques for using the enormous amount of

software Knoppix offers-not just to work and play, but also to troubleshoot, repair, upgrade, and disinfect your system without having to install a thing. Knoppix Hacks is just like the distribution it covers: a veritable Swiss Army knife packed full of tools. Scores of industrial-strength hacks-many of them new to this second edition-cover both the standard Knoppix CD and the feature-rich DVD "Maxi" distribution, which is included with this book. Discover how to use Knoppix to its full potential as your desktop, rescue CD, or as a launching point for your own live CD. With Knoppix Hacks, you can:

- Investigate features of the KDE desktop and its Internet applications
- Save your settings and data between reboots with persistent storage
- Employ Knoppix as a system administration multitool to replace failed servers and more
- Use the CD/DVD as a rescue disc to repair filesystems or a system that won't boot
- Rescue Windows systems with Knoppix to back up files and settings, hack the registry, and more
- Explore other live CDs based on Knoppix that could augment your system
- Easily install the popular Debian GNU/Linux distribution with all of your hardware detected and configured
- Remaster Knoppix to include your favorite software and custom branding

Whether you're a new Linux user, power user, or system administrator, this book helps you take advantage of Knoppix and customize it to your needs. You may just find ways to use Knoppix that you never considered.
