Perfect PSA (Problem Solving Assessment) Practice Papers for Class IX provides concise study material aimed at helping the students to have a quick overview of the essential study material and revise important aspects of the three major areas of study viz. Language Conventions, Quantitative Reasoning and Qualitative Reasoning. The books also provides Practice Papers (with answers/solutions/explanations) to enable the students attempting CBSE class IX exam as well as for different competitive examinations.

PSA For Class IX is a compact yet exhaustive resource for students for a quick and basic understanding of relevant concepts and theories. It comprises five parts: Qualitative Analysis, Quantitative Analysis, English Comprehensions, Data Interpretation and Passages, and Assessment Zone. The book helps students solve time-management problems and increase their IQ and reasoning ability, which are quite essential for success in any career. KEY FEATURES • Designed in the format provided by the CBSE • Includes all possible types of questions actually asked in the examination • Sections on 'Let's Try' in each chapter will help students develop creative thinking • Will help in understanding the basics of Science and Mathematics • Will help students learn more in less time • Includes solved previous years' question papers along with two Model Test Papers

1. 2020 Solved Paper Outside Delhi 3 sets, Delhi 3 Sets, Basic Maths 1 set, 2. On Tips Notes, 3. MCQs (10 Practice Sets with Solution), 4. Board Solved Sample Paper, 5. Sample Paper, 6. Mock Test paper

• Strictly as per the new term wise syllabus for Board Examinations to be held in the academic session 2021-22 for classes 9th & 10th • Multiple Choice Questions based on new typologies introduced by the board- I. Stand- Alone MCQs, II. MCQs based on Assertion-Reason III. Case-based MCQs. • Revision Notes for in-depth study • Mind Maps & Mnemonics for quick learning • Include Questions from CBSE official Question Bank released in April 2021 • Answer key with Explanations • Concept videos for blended learning (science & maths only)

A text book on Maths

PSA For Class XI is a well-planned resource for students and is prepared strictly according to the latest guidelines given by the CBSE (Central Board of Secondary Education). The book comprises five major parts: Qualitative Analysis, Quantitative Analysis, English Comprehensions, Data Interpretation and Passages, and Assessment Zone. It contains examples and exercises, with answers and explanations, based on the examination pattern. The text also includes sections on 'Let's Try' in each chapter to help students develop creative thinking and is a must buy resource for students appearing for the PSA examination. KEY FEATURES • Step-by-step solutions to build an understanding of concepts and theory • Designed in the format provided by the CBSE • All possible types of questions framed according to the examination • Includes solved previous years' question papers along with two Model Test Papers

Perfect Sample Papers is a series prepared as per the guidelines, syllabus and marking scheme issued by CBSE for Class X Summative Assessment II . The salient features of Perfect Sample Papers are: • The questions in the sample papers have been so designed that complete syllabus is covered. • Solutions to the first five sample papers are given. Students are advised to attempt these papers first, and take help from the solutions provided in the book to identify their weak areas and improve them. • Additional ten unsolved sample papers for practice will help students gain confidence. • The questions in the sample papers are of varying difficulty level and will help students evaluate their reasoning, analysis and understanding of the subject matter.

An insightful exploration of the key aspects concerning the chemical analysis of antibiotic residues in food The presence of excess residues from frequent antibiotic use in animals is not only illegal, but can pose serious health risks by contaminating products for human consumption such as meat and milk. Chemical Analysis of Antibiotic Residues in Food is a single-source reference for readers interested in the development of analytical methods for analyzing antibiotic residues in food. It covers themes that include quality assurance and quality control, antibiotic chemical properties, pharmacokinetics, metabolism, distribution, food safety regulations, and chemical analysis. In addition, the material presented includes background information valuable for understanding the choice of marker residue and target animal tissue to use for regulatory analysis. This comprehensive reference: Includes topics on general issues related to screening and confirmatory methods Presents updated information on food safety regulation based on routine screening and confirmatory methods, especially LC-MS Provides general guidance for method development, validation, and estimation of measurement uncertainty Chemical Analysis of Antibiotic Residues in Food is written and organized with a balance between practical use and theory to provide laboratories with a solid and reliable reference on antibiotic residue analysis. Thorough coverage elicits the latest scientific findings to assist the ongoing efforts toward refining analytical methods for producing safe foods of animal origin.
