The impairment rules of IFRS 9 introduce a new, forward looking, expected credit loss (' ECL ') impairment model which will generally result in earlier recognition of losses compared to IAS 39. These changes are likely to have a significant impact on entities that have significant financial assets, in particular financial institutions.

Impairment (IFRS 9) | PwC's Inform - INT | Accounting ... PwC ' s ' In depth – IFRS 9 impairment practical guide: provision matrix ' provides guidance for calculating expected credit losses for those balances. This practical guide discusses which intercompany loans fall within the scope of IFRS 9 and how to calculate expected credit losses on those that do.

IFRS 9 Impairment - Intercompany loans: PwC In depth ... Paragraph 5.5.20 of IFRS 9 contains an exception for certain types of financial instruments to measure expected credit losses over the period that the entity is exposed to credit risk, even if that period extends beyond the contractual period. The exception applies to some financial instruments that include both a loan and an undrawn commitment.
