Radiography | GE Healthcare About this class. This program instructs X-ray Technologists in practical theory and operation of the GE Analog Radiography systems. Instruction is delivered by a GE X-ray Applications Specialist at the customer facility and focuses on beginner to advanced system operation and patient procedures. This training produces the best results when a group of 4 Technologists are dedicated to the complete training session.

Analog Radiography | GE Healthcare GE Healthcare Mammography. Show Less. Footnotes: 1. Superior diagnostic accuracy demonstrated in a reader study comparing the ROC AUC of GE screening protocol (V-Preview + 3D CC/MLO with 3D in STD mode) to that of 2D FFDM alone. V-Preview is the 2D synthesized image generated by GE Seno Iris mammography software from GE DBT images.
