Two Hearts, One God.? Should Anything Else Matter? Zora Nella Hampton Johnson knows exactly where she comes from—and her daddy won't let her forget. Of course for that privilege he keeps her in Prada and Kate Spade, Coach and YSL. He chooses her boyfriend, her car, her address, and ignores her love of painting, art, and the old ways of her granddaddy's soulful AME church—where the hymns pleaded, cajoled, and raised the roof. Her daddy may be a preacher, but some-where among the thousands of church members, the on-site coffee house, and the JumboTron, Zora lost God. And she wants Him back. Nicky Parker, a recent graduate of Berkeley and reformed playboy, also suffers the trials of being a preacher's kid, and he can't remember the last time he saw eye-to-eye with his white, racist, Southern Baptist father. What he does remember—and it will be forever burned in his brain despite myriad prayers to Jesus—is the way Zora looked the first time he saw her. Like Nefertiti. Only better. When they meet at a bible study far from their respective home churches, the first churlish, sarcastic sparks that fly sizzle with defensiveness. But God has a special way of feeding the flames and though of different flocks, these two lost sheep will find Him and much, much more. The Grace Awakening called all Christians to wake up and reject living in such legalistic, performance-oriented bondage. The God of the universe has given us an amazing, revolutionary gift of grace and freedom. This freedom and grace set us apart from every other "religion" on the face of the earth. Now, in this ground-breaking Workbook, filled with questions, exercises, journaling ideas, and scriptures to explore, Charles Swindoll teaches you how to start living a grace-filled life. Freedom and joy-not lists and demands and duties-await all who believe in the Lord Jesus Christ.

How can the United States avoid a future surprise attack on the scale of 9/11 or Pearl Harbor, in an era when such devastating attacks can come not only from nation states, but also from terrorist groups or cyber enemies? Intelligence and Surprise Attack examines why surprise attacks often succeed even though, in most cases, warnings had been available beforehand. Erik J. Dahl challenges the conventional wisdom about intelligence failure, which holds that attacks succeed because important warnings get lost amid noise or because intelligence officials lack the imagination and collaboration to "connect the dots" of available information. Comparing cases of intelligence failure with intelligence success, Dahl finds that the key to success is not more imagination or better analysis, but better acquisition of precise, tactical-level intelligence combined with the presence of decision makers who are willing to listen to and act on the warnings they receive from their intelligence staff. The book offers a new understanding of classic cases of conventional and terrorist attacks such as Pearl Harbor, the Battle of Midway, and the bombings of US embassies in Kenya and Tanzania. The book also presents a comprehensive analysis of the intelligence picture before the 9/11 attacks, making use of new information available since the publication of the 9/11 Commission Report and challenging some of that report's findings.
