Reflexercise™ was created by physical therapist, Scott Musgrave, MSPT.

REFLEXERCISE EPUB

Keeping your body and brain in optimal shape is imperative if you want quick reflexes. Foods high in refined sugars and trans fats can make you feel sluggish. Make sure you are getting enough protein, complex carbohydrates, and healthy fats. Whole foods like nuts, fish, berries, greens, and garlic increase cognitive function.

individual is not in danger through specific posturing in the opposite direction. Of course, my interventions with this patient also later included exercise and manual therapy, but these results suggest the significant importance of addressing the central, sympathetic, and parasympathetic nervous systems.

Reflexercise | Body Basics

Reflexercise™ is an active process that allows you to retrain your brain (and body) to react appropriately relative to stressful situations, recover quickly, and be calm and balanced the rest of the time. Reflexercise™ is the first step in a 6 part treatment approach called, Associative Awareness Technique™, or AAT™.
