Parts for sale | eBay

The Regulator Clock Company specialises in precision regulator clocks from the early 19th century through to the modern day. The company, founded by Jonathan Flower, has an extensive collection of both astronomical and domestic regulators in a variety of styles, by celebrated makers of high precision horology such as Dent, Condliff and Kullberg. It is supported by a team of specialists who sympathetically restore each clock so that it can continue to provide accurate service

Clock Parts - Clock Movements  
Pendulum Clock Movements All of our battery operated pendulum movements have several things in common. They are all operated by an electro magnet that gives a pulse to a magnet on the pendulum arm, which gives the pendulum a very natural swinging motion.

## Pendulum Clock Movements - Battery Clock Movement

Clock Parts is a manufacturer and distributor of clock movements, parts and mechanisms. Offering electric, battery and quartz clock movements to replace or repair old clock mechanisms with new clock parts. Check out our large selection of clock works, dials, hands, inserts, motors, movements and clock kits.

Parts which can be found to keep a longcase, or grandfather clock in good working order include suspension blocks, pulleys, keyhole grommets and pendulums. Carriage clocks first appeared in France in the early 19th century and grew popular because they were portable and decorative.

Antique Clock Parts for sale | eBay  
Hermle clock movements include these clock parts, the cables and pulleys, or chains, the leader, and suspension spring. This is everything that comes out when you remove the two screws that are under the clock movement, besides the dial and weights .

Information on the category:  
Regulator Clocks Regulators make the  
course of time visible. Until the late  
1960s regulators were used as high  
precision instruments for official  
measuring of time and in scientific  
contexts. Today they are an icon of  
precision and 'timeless' elegance. Our  
elegant regulators are visually  
appealing and elaborately ...

Almost all parts apart from movement cogs can be sourced for this type of clock as they were popular, if a little sensitive to changes in their environment. Prices for a clean and service range from £70 – £220. The wide variance is due to the fact that a lot of clocks were made in the regulator style and there are a variety of movements used.
