~~Rethinking Us Security National Security~~

October 23, 2020. Climate change and the COVID pandemic are highlighting key weaknesses in U.S. national security strategy and policy. Addressing these issues will not just require making traditional national security agencies more climate- and pandemic-aware, but a reimagining of the concept of national security itself.

~~An Age of Actless Threats: Rethinking National Security~~

The events that have unfolded in 2020 thus far underscore the need to rethink the US national security agenda. For decades, the U.S. has zeroed in on great power competition and terrorism as leading US national security concerns. This ordering reflects the traditional security paradigm, which places the state at the center of security studies and generally focuses on threats of a military nature. [1]

The Statement: In just 153 words, this statement summarizes what went wrong and how it might be fixed. Signers include a former Secretary of Defense, a former Deputy Secretary General of NATO, a former Director of the National Security Agency (NSA), and Ronald Reagan's Ambassador to Moscow. A more complete list of signers follows the statement. The Paper builds on the statement by briefly exploring twelve assumptions that form the foundation for our thinking on national security, but that ...

Rethinking Security is a network of UK-based organisations, academics and activists. We work for a just and peaceful world, based on approaches that address the underlying causes of conflict and insecurity. We have a shared concern that the current approach to national security in the UK and beyond often hampers efforts for peace, justice and ecological sustainability.

~~About Rethinking Security~~

Statement of support for Rethinking National Security When World War II ended in 1945 our nation was secure from attack. Since then, we have invest- ed trillions of dollars in an effort to improve our national security. We have applied some of our brightest minds to maximize the value of that in- vestment.

~~RETHINKING NATIONAL SECURITY—Stanford EE~~

Rethinking the meaning of [security] does not mean wishing away problems, however, but dealing better with the ones we have. We are not proposing a utopian blueprint, but a set of principles that could guide a positive shift in the way major choices are made in future, so that the fundamental needs of people and planet are met more effectively and more humanely.

~~Frequently asked questions—Rethinking Security~~

Our first Rethinking Security national conference brought together a wide range of organisations, activists and academics, to discuss the problems with the UK's current approach to national security, and explore the required elements of a new approach. You can read the full conference report here: Rethinking Security conference report June 2018

Cruelty, for example, is seldom acknowledged to be a consequence of states' worship of the God security. This security-at-any-cost way of thinking started decades ago. In 1948, George Kennan the former Head of the US State Department's Policy Planning staff, opposed what he called a liberal enlightened view of the new world.
