Chronicling the rise of the Keepers, this is the stunning prequel to Andrea Cremer's internationally bestselling Nightshade trilogy! Sixteen-year-old Ember Morrow is promised to a group called Conatus after one of their healers saves her mother's life.

Although it is probably not necessary to read Nightshade first, I would recommend that you do (although there were times in the book when I also wished I didn't already know how it was ultimately going to end!)

Of course, being as this is a prequel book there are certain plot points that readers know will happen in the future. It lends a serious sense of impending doom to the read that would be otherwise quite difficult to create. I found it fascinating to see how the character of Bosque Mar from the Nightshade series made his mark on Rift. For much ...

So well, I hoped the Rift series might redeem the author and also have a nice ending XD I love the olden day stories and the old ...
