The Book 7 Temporary Conditions Field Edition has been developed to show how to apply traffic control devices in temporary construction, maintenance, and utility work zones, to help ensure worker safety, motorist safety, and motorist mobility. It has been prepared to assist workers in the field by illustrating the appropriate signing and the channelization required for the most common types of roadway work operations.

AA Book of Road Signs is an ideal companion for driving in the UK and builds on the information provided in the AA's edition of "The Highway Code". The book is divided into 17 clear and easy-to-use sections covering warning signs; regulatory signs; speed limit signs; low bridge signs; level crossing signs; tram signs, bus and cycle signs; pedestrian zone signs; on-street parking; traffic calming; motorway signs; direction and tourist signs; signs for cyclists and pedestrians; information signs; tidal flow lane control; pedestrian, cycle and equestrian signs; and, road works and temporary signs. "The AA Book of Road Signs" also contains a short guide about the best ways to plan a route.

Detailed drawings of the Standard Highway Signs prescribed or provided for in the Manual on Uniform Traffic Control Devices (MUTCD), 2003 Edition, have been prepared by the Office of Transportation Operations, Federal Highway Administration, U. S. Department of Transportation, for use by all traffic authorities, agencies, jurisdictions and persons involved with the fabrication, installation and maintenance of traffic signs on streets and highways in the United States. These drawings are presented in English units as an alternate to metric dimensional designs. They are provided to promote uniformity in design throughout the United States in accordance with Title 23, U.S. Code, Sections 109(b), 109(d) and 402 (a), and Highway Safety Program Standard 13, "Traffic Engineering Services". As stated in the MUTCD, "Uniformity in design includes shape, color, dimensions, legends and retroreflection. This manual shows typical signs approved for use on streets and highways. Detailed drawings of these and other approved signs are available to State and local highway and traffic authorities and similarly interested agencies. All symbols shall be unmistakably similar to those shown and where a word message is applicable, the wording shall be as herein provided unless alternative wording is optional. Most standard symbols are oriented facing left; however, this does not preclude the use of mirror images of these symbols where the reverse orientation might better convey a direction of movement to vehicle operators. Standardization of these designs does not preclude further improvements by minor changes in the proportion of the symbols, width of borders, or layout of word messages, but all shapes and colors shall be as indicated.
