Robotics: Modelling, Planning and Control / Advanced Textbooks in Control and Signal Processing. This book is the natural evolution of the previous text Modelling and Con- trol of Robot Manipulators by the first two co-authors, published in 1995, and in 2000 with its second edition. The cut of the original textbook has been confirmed with the educational goal of blending the fundamental and techno- logical aspects with those advanced aspects, on a uniform track as regards arigorous formalism.
