As was normal with the hunt, the females had been given a head start. It was almost a pointless exercise. When the dragon species still had females to go around, not enough of course, they would regularly organize hunts such as this. Dragon females were much faster and yet even they, were no match for the stronger, faster, more agile males.

Scarlet looked smug before turning back to the group. "We are dragon shifters." "I knew it." Candy muttered under her breath. Pauline whimpered. She hugged herself tighter. She was the smallest of the women. A tiny little thing with fine blond hair and huge blue eyes. "The reason you are here is to take part in the hunt." "Hunt."

He doubted that a dragon shifter female could have done much better. It was a pity that she was so weak and defenseless though. He hoped that he would be able to muster interest for her in the days and weeks to come, so that the task of mating and impregnating her would be less arduous.

Dragon Shifter Novel Blaze has loved and lost before. He's been down that slippery path before and never wants to go there again. Especially not with a human. It's a great pity that he has no choice. The problem is that he's the fire King, ruler of all four kingdoms. Blaze is expected to have heirs, and the sooner the better. He'll have to take a human as his mate, one that will bear his young, but he doesn't have to love her. Blaze plans on handling it like a business transaction. No love, no emotion, no problem. Dragon Shifter Novel Torrent took part in the much anticipated hunt. Luckily, he managed to secure himself a female. Although the human was not his first choice, she'll do. A fertile female is a fertile female after all. An heir is what he needs and an heir is what she'll give him. In return, she'll get to be queen of the water kingdom. What more could a female wish for? Candy is hunted like an animal and won by an arrogant shifter who doesn't even want her. She doesn't care that he's a king. So what if he's really good looking and that underneath all that bristling, alpha male is a sweet guy. Although sweet is probably not the right description for the savage, water king. The only thing he's interested in, is mating her, so that she can pop out lots of dragon shifter babies. Well, no thanks! She's not interested. As soon as she's able to get that through his thick skull, she's out of there. Torrent promised her she could leave if things didn't work out between them and she plans on holding him to his word. This book can be read as a standalone but would be best enjoyed as a part of the series (Start with Chosen by the Vampire Kings). No cliffhanger! The story contains

"The last thing Tamara expected was to be snatched away by a winged beast. This hadn't been part of the brief. Was this normal hunt behavior? Surely not. Tamara had a really bad feeling about this. Once the feeling settled in the pit of her stomach, it wouldn't let go."--Publisher description.

A Dragon Shifter Novel There are secrets that the humans must never find out. Secrets that would bring about the demise of the dragon species. The dragons have something that the humans want and would fight to get. Their weakness to silver is the one area that humans have exploited in the past, almost bringing the dragon species to their knees. New information has come to light proving that this affliction is an allergy. One that can potentially be beaten. Dr. Louise Parry is a top specialist in her field. She is also kind and compassionate, someone the dragons can trust. She is tasked with finding a cure. A job she does not take lightly. Thankfully, she has very little dealings with the bad-tempered king. There is something about him that has her heart beating faster and a flame of awareness igniting inside her. She can't understand why, since he's rude and abrasive. Granite wants a cure found. The sooner the better. He keeps a close eye on the whole project and moreover, on the little human
