This is the forth book in this series that began with an in-depth look at how God views details, communicates with this world, and decides what process to use. Of course this series of books looked at aspects recorded in scripture about the Tabernacle. How the materials were collected, specific design details, who did the work, and how the Tabernacle was constructed. Much of that information is found in dozens, maybe hundreds of other books about the Tabernacle. But there are details setting this book apart from every other book written about the Tabernacle. This book takes a verse by verse, story by story, chapter by chapter look at the Tabernacle. In other words, this book presents a picture of the Tabernacle from God's point of view. Which the beginning of this series pointed out, is much different than any human perspective.
