Russian Fascist Organization (RFO) was the name adopted by a Russian émigré group active in Manchuria before World War II.. The RFO was formed in 1925 by members of the Law Faculty at Harbin Normal University. Under the leadership of Prof. N.I. Nikiforov, it looked to Italian fascism for inspiration and produced the 'Theses of Russian Fascism' in 1927. ...

First Published in 2001. Routledge is an imprint of Taylor & Francis, an Informa company.

Will Russia's fragile and flawed democracy meet the same fate as interwar Germany's Weimar Republic? That is the question that prompts this meticulous analysis of fascism, its manifestations in Russian political and cultural history, and fascist tendencies and movements in contemporary Russia. The author devotes chapters to the many Russian political parties, movements, and organizations that have been labeled (or mislabeled) as fascist. He critically examines each in terms of program, leadership, and organizational effectiveness. Against the background of the current climate of opinion and events in Russia, he concludes with a careful attempt to weigh the prospects for a fascist outcome.

This study presents a thorough analysis of facism, its manifestations in Russian political and cultural history, and facist tendencies and movements in contemporary Russian society.

This study presents a thorough analysis of facism, its manifestations in Russian political and cultural history, and facist tendencies and movements in contemporary Russian society.

This book examines the relationship between the Putin regime and Russkii Obraz, a neo-Nazi organization that became a major force on Russia's radical nationalist scene in 2008-10. It shows how Russkii Obraz's rise was boosted by the regime's policy of "managed nationalism," which mobilised radical nationalist proxies against opponents of authoritarianism. In return for undermining moderate nationalists and pro-democracy activists, Russkii Obraz received official support and access to public space. What made this collaboration politically hazardous for the Kremlin was Russkii Obraz's neo-Nazi ideology and its connections to BORN, a terrorist group responsible for a series of high-profile killings. When security forces captured the ringleader of BORN, they precipitated the destruction of Russkii Obraz and a crisis for managed nationalism. Using court records and extensive media and internet sources, this book sheds new light on the complex interaction between the Kremlin, the far-right, and neo-Nazi skinheads during Russia's descent into authoritarianism.

In *Is Russia Fascist?*, Marlene Laruelle argues that the charge of "fascism" has become a strategic narrative of the current world order. Vladimir Putin's regime has increasingly been accused of embracing fascism, supposedly evidenced by Russia's annexation of Crimea, its historical revisionism, attacks on liberal democratic values, and its support for far-right movements in Europe. But at the same time Russia has branded itself as the world's preeminent antifascist power because of its sacrifices during the Second World War while it has also emphasized how opponents to the Soviet Union in Central and Eastern Europe collaborated with Nazi Germany. Laruelle closely analyzes accusations of fascism toward Russia, soberly assessing both their origins and their accuracy. By labeling ideological opponents as fascist, regardless of their actual values or actions, geopolitical rivals are able to frame their own vision of the world and claim the moral high ground. Through a detailed examination of the Russian domestic scene and the Kremlin's foreign policy rationales, Laruelle disentangles the foundation for, meaning, and validity of accusations of fascism in and around Russia. *Is Russia Fascist?* shows that the efforts to label opponents as fascist is ultimately an attempt to determine the role of Russia in Europe's future.

Based on extensive ethnographic research, this collection uses a variety of theoretical perspectives and methodologies to examine some of the many subcultures and new religious movements that have emerged in Central and Eastern Europe since the fall of communism.
