Scarred Survival is book 5 in the Scarred Series. It can be read alone, but is probably best enjoyed in conjunction with the rest of the series due to previous character involvement. All the books are easy read romance with plenty of humour, some typical army guy language and a few sensual sex scenes.

Battle-scarred investigates the human costs of the British Civil Wars. Through a series of varied case studies it examines the wartime experience of disease, burial, surgery and wounds, medicine, hospitals, trauma, military welfare, widowhood, desertion, imprisonment and charity. The percentage population loss in these conflicts was far higher than that of the two World Wars, which renders the Civil Wars arguably the most unsettling experience the British people have ever undergone. The volume explores its themes from new angles, demonstrating how military history can broaden its perspective and reach out to new audiences.

For three years retired Special Services soldier, Patrick Reeves has avoided his once comfortable world. Unable to accept his terrible injuries he moves to a secluded cottage in France and hides from everyone, most of all himself. But when a bright, beautiful woman, who stirs his blood and steals his heart, discovers the ruined chateau and estate in which his home stands, it is more than his unerring control can bear. For her to flinch from his wounds would be terrible, but for her to pity him would be the final insult. His only option is to ensure she never sees him at all. Ellen doesn't give a damn what Patrick looks like, one glimpse of his shaded figure, one hint of his masculine scent and she is his forever. She breaks off her engagement and follows her heart, buying the fabulous chateau to fulfil an idea that has been her greatest wish since her brother was blown up in Afghanistan. If she can capture the elusive Patrick at the same time as attain her goals, her world will be complete. But she is devastated when Patrick abandons her for a flame haired beauty and when her ex-fiance reappears, determined that he is neither surrendering her or her fortune, Ellen discovers that she is in danger of not only losing her lover but her life too. Can Patrick free himself in time to save the woman who loves and accepts him exactly as he is or will she be lost to him forever while he has been Running Scarred for far too long. Success Behind the Scars is an honest and remarkable telling of Marshall's journey through hardship. He was born into a violent, abusive home and performed poorly in school. How does a kid like Marshall, who can't read, grow up to earn top grades in a challenging university? How does a child who witnesses his father beating up his mother later become a loving husband? The answers to these and other difficult questions are what Success Behind the

Scars endeavors to answer.

"...As author Lou Rosenblatt explains, the year 1832 in Darwin's life was crucial for the development of his theory of evolution. A century and a half of study of Darwin, the man, and his work, including close readings of his books, notebooks, letters, and even the books he read, has led to a working appreciation of his genius. The "success" of this account has, however, kept us from seeing several important issues: most notably, why did he pursue evolution in the first place? While this book is neither an almanac of 1832, nor a biography of Charles Darwin (though both are at the heart of Rosenblatt's work), Buckets from an English Sea offers a unique take on the factors that shaped Darwin's legendary theory and the making of him as a scientist..."--Dust jacket.

From a writer whose work has been called “breathtaking and dazzling” by Roxane Gay, this moving, illuminating, and multifaceted memoir explores, in a series of essays, the emotional scars we carry when dealing with mental and physical illnesses—reminiscent of *The Collected Schizophrenias* and *An Unquiet Mind*. In this stunning debut, Laura Lee weaves unforgettable and eye-opening essays on a variety of taboo topics. In “History of Scars” and “Aluminum’s Erosions,” Laura dives head-first into heavier themes revolving around intimacy, sexuality, trauma, mental illness, and the passage of time. In “Poetry of the World,” Laura shifts and addresses the grief she feels by being geographically distant from her mother whom, after being diagnosed with early onset Alzheimer’s, is relocated to a nursing home in Korea. Through the vivid imagery of mountain climbing, cooking, studying writing, and growing up Korean American, Lee explores the legacy of trauma on a young queer child of immigrants as she reconciles the disparate pieces of existence that make her whole. By tapping into her own personal, emotional, and psychological struggles in these powerful and relatable essays, Lee encourages all of us to not be afraid to face our own hardships and inner truths.

The ODDs Beginnings is about how an old order of demon fighters and wizard trainers is wiped out in one night, and what the powers of good (the Powers of Light) choose to do in reaction to this. They choose a teenaged guy, David Murphy, as the Water Empowered and then Richard Stephens as the Fire Empowered. These young men have increased physical strength, heal faster, and eventually begin to learn how to control their respective powers. The story follows them from when they both first become Empowered and through trying to learn about these powers, with the help of Christopher Games and Jerry Sweapons and a team they build up called the ODDs: the Organisation of Demon Destroyers. Early in the story David has a dream and as the story progresses it becomes evident that this dream is actually prophetic. The dream changes as David’s circumstances change and each dream (bar one) takes place on what they call “The Night of the Green Hands.” The dreams reveal an enemy called Scoilteach (an Irish word meaning ‘Acute Pain’) who plans on raising an army and taking over the world. He needs to open a Dimensional Portal on a hill known as Oakhill (now a hockey pitch in a school) and the ODDs need to stop him or he will achieve his ends, rebuild his army, and bring destruction to the world as we know it.
