Science. This is aligned to MOE's Primary Science Syllabus (2014) and our school's vision. Students are taken through 5 key stages of learning in the 5E Instructional Model - Engage, Explore, Explain, Elaborate and Evaluate – as they discover and reinforce the learning of Science concepts.

Science - MOE

The Primary Science Syllabus is based on the Science Curriculum Framework. The Science Curriculum Framework encapsulates the thrust of science education in Singapore to prepare our students to be sufficiently adept as effective citizens, able to function in and contribute to an increasingly technologically-driven world.

Syllabus Primary 2014 Moe

(implemented in 2014 for P3 cohort)
The Primary Science Syllabus aims to:
provide students with experiences which build on their interest in and stimulate their curiosity about their environment; provide students with basic scientific terms and concepts to help them understand themselves and the world around them;

SCIENCE – Yu Neng Primary School
The teaching of science in the primary curriculum involves the development of two types of understanding: conceptual understanding and procedural understanding. Children's conceptual understanding is concerned with the development of scientific knowledge and with their deepening understanding of fundamental scientific ideas. The four strands of the
