The essays here seek to 'bring back space' into the realm of International Relations discourse, from which it has been largely removed, marginalized and silenced. The various chapters do this by highlighting how activities in outer space are always connected to earth-bound practices and performances of the every day.

The junction of cybersecurity and space security should be taken seriously and certainly requires specific international assessments. Possible steps include the creation of a new group of governmental experts to provide guidance on this topic as well as the production of more working papers to build upon during international fora such as the Conference on Disarmament.
