When brainstorming self-portrait ideas, you can begin by making a list of things or places you love. For instance, you could write down 'photography' or another favorite hobby. These interests could inspire a self-portrait that showcases your interests, instead of just your face.

"Family isn't always your relatives. It's the ones who accept you for who you are. The ones who would do anything to see you smile, and who love you no matter what." -Unknown Teachers do so much more than just teach academics. They build a sense of community within their classrooms, creating a home away from home where they make their students feel safe, included, and loved. With its heartfelt message and colorfully whimsical illustrations, "Our Class is a Family" is a book that will help build and strengthen that class community. Kids learn that their classroom is a place where it's safe to be themselves, it's okay to make mistakes, and it's important to be a friend to others. When hearing this story being read aloud by their teacher, students are sure to feel like they are part of a special family. And currently, during such an unprecedented time when many teachers and students are not physically IN the classroom due to COVID-19 school closures, it's more important than it's ever been to give kids the message that their class is a family. Even at a distance, they still stick together.

In rhyming text, a little girl expresses confidence and joy in her uniqueness, no matter her outward appearance.

With a heartwarming story and tender illustrations, Jeanette Bradley's debut picture book Love, Mama is perfect for Valentine's Day, Mother's Day, and any day when a child needs a reminder of the strength of a mother's love. When Mama leaves her young penguin Kipling, he knows she'll return home soon—yet he still can't help but miss her. After all, Pillow Mama won't read, Picture Mama won't laugh, and Snow Mama is too cold to cuddle. But then Kipling receives a special delivery from Mama, including a note that reads: My love for you stretches across the wide ocean, through day and night, from earth to sky and back again. And Kipling knows that no matter where Mama is, he is loved. Soon, Mama comes home, and Kipling ends the day where he belongs—right in her arms.

There's more to being a boy than sports, feats of daring, and keeping a stiff upper lip. A Boy Like You encourages every boy to embrace all the things that make him unique, to be brave and ask for help, to tell his own story and listen to the stories of those around him. In an age when boys are expected to fit into a particular mold, this book celebrates all the wonderful ways to be a boy.

"First published in Great Britain in 2017 by Puffin Book"--Page 4 of cover.

If you could only get past feelings of embarrassment, fear, self-criticism, and self-doubt, how would your life be different? You might take more chances and make more mistakes, but you'd also be able to live more freely and confidently than ever before. Get Out of Your Mind and Into Your Life for Teens is a workbook that provides you with essential skills for coping with the difficult and sometimes overwhelming emotions that stress you out and cause you pain. The emotions aren't going anywhere, but you can find out how to deal with them. Once you do, you will become a mindful warrior—a strong person who handles tough emotions with grace and dignity—and gain many more friends and

accomplishments along the way. Based in proven-effective acceptance and commitment therapy (ACT), this book will arm you with powerful skills to help you use the power of mindfulness in everyday situations, stop finding faults in yourself and start solving your problems, how to be kinder to yourself so you feel confident and have a greater sense of self-worth, and how to identify the values that will help you create the life of your dreams.

The detection and recognition of objects in images is a key research topic in the computer vision community. Within this area, face recognition and interpretation has attracted increasing attention owing to the possibility of unveiling human perception mechanisms, and for the development of practical biometric systems. This book and the accompanying website, focus on template matching, a subset of object recognition techniques of wide applicability, which has proved to be particularly effective for face recognition applications. Using examples from face processing tasks throughout the book to illustrate more general object recognition approaches, Roberto Brunelli: examines the basics of digital image formation, highlighting points critical to the task of template matching; presents basic and advanced template matching techniques, targeting grey-level images, shapes and point sets; discusses recent pattern classification paradigms from a template matching perspective; illustrates the development of a real face recognition system; explores the use of advanced computer graphics techniques in the development of computer vision algorithms. Template Matching Techniques in Computer Vision is primarily aimed at practitioners working on the development of systems for effective object recognition such as biometrics, robot navigation, multimedia retrieval and landmark detection. It is also of interest to graduate students undertaking studies in these areas.

A life lesson that all parents want their children to learn: It's OK to make a mistake. In fact, hooray for mistakes! A mistake is an adventure in creativity, a portal of discovery. A spill doesn't ruin a drawing—not when it becomes the shape of a goofy animal. And an accidental tear in your paper? Don't be upset about it when you can turn it into the roaring mouth of an alligator. An award winning, best-selling, one-of-a-kind interactive book, Beautiful Oops! shows young readers how every mistake is an opportunity to make something beautiful. A singular work of imagination, creativity, and paper engineering, Beautiful Oops! is filled with pop-ups, lift-the-flaps, tears, holes, overlays, bends, smudges, and even an accordion "telescope"—each demonstrating the magical transformation from blunder to wonder.

Plus-sized sixteen-year-old Maisie Martin never thought she had the figure to compete in a beauty pageant, but this vacation is about to change everything. Maisie has spent most of her life hiding her body from everyone: her gorgeous best friend, her pageant-winning sister, and definitely her longtime crush. Never one to jump in the water, Maisie is planning on taking it easy while her friends chill at the beach. But then her BFF starts flirting with the boy she's always loved, her older sister comes home and steals the spotlight, and Maisie has found herself pushed aside like usual. Except now, she's had enough. After forging new friendships, Maisie takes the deep dive and enters the local Miss Teen Queen. Now, with all eyes on her, can Maisie prove she has a place in the spotlight? This contemporary young adult novel is as relatable as it is charming and Maisie's realistic journey towards confidence and self-love will draw readers in as she learns how to celebrate all of herself.
