he's going to hell. When you rescue a drowning woman from a lake your first thought should be, "Are you okay?" not, "Can I make mad, passionate love to you?" But the minute sputtering kindergarten teacher Violet Caruthers is on Dylan's boat, that's all he can think about. Maybe it's the potent combo of a nun's personality inside a stripper's body. Maybe it's the way she drives him crazy with desire and laughter. Or maybe, Dylan's finally found what's been missing in his life, and he's not about to let go. . .

vencedoras, enganadas e sacrificadas. Aos seus homens cruéis, violentos, tiranos e infiéis, faziam crer que eram belos, charmosos e todo-poderosos. Sendo a virilidade um dos alicerces do poder absoluto, os ditadores sentiam a necessidade de juntar figuras femininas ao imaginário de poder e domínio que criaram. E assim controlando-os na sombra, por vezes, até à morte, como se vivessem sob a égide de um Pigmaleão. Diane Ducret relata em detalhe os momentos, as estratégias de sedução, os casos amorosos, as intervenções políticas e os destinos diversos,

This book explains how you can go about preparing for a better birth. Written by two experienced midwives, it doesn't promise a magical remedy. And it doesn't treat all birth options and all women as if they are the same. But with the right information and an appropriate choice of place and caregiver, pregnancy and birth can be a truly momentous event. A better birth can be an event every mother can look back on with satisfaction.

Group litigation has been recognised by political scientists in the States as a useful method of gaining ground and attracting publicity for pressure groups since the turn of the century. In Britain however,

Recognition that the courts fill such a role has come more slowly. Despite this lack of recognition, pressure through law is far from a modern phenomenon. As the authors show, such cases can be identified in Britain as early as 1749 when abolitionists used the court to test conflicting views of slavery in common law. This book looks at the extent to which pressure groups in Britain use litigation, presenting a view of the courts as a target for campaigners and a vehicle for campaigning. It begins with a description of the tradition of pressure through law in Britain,

tracing the development of a parallel tradition in the United States, which has been influential in shaping current British attitudes. The authors analyse the significance of the political environment in Britain in test-case strategy. In contrast with America, Britain has no written constitution and no Bill of Rights and its lack of Freedom of Information legislation makes both litigation and the monitoring of its effects very difficult. However, the centralised character of the British government means that the effects of lobbying are rather more visible in

the corridors of power. The authors examine a large number of case studies in order to analyse current practice, and they look at the rapidly changing European and international scene, discussing transnational law, the European community and the Council of Europe. They also look at the campaign tactics of global organisations such as Amnesty and Greenpeace. Carol Harlow and Richard Rawlings are experienced in public law and familiar with political science literature. They are therefore able to relate legal systems to the political process, in a book
