### How I Built A Shepherders Wagon Sheep Wagon Parts & Plans ...

When his family sold the sheep, Rench, decided to renovate the six wagons owned by his family. He discovered there was a demand for them and started renovating other people's wagons and building new ones. "The average size is 12 ft. long by 74 or 76 in. wide, and they are built on 3 types of frames," Rench says.

Hello, I did a similar build off a ford pickup bed frame from a totaled pickup truck many years ago. I agree with the another poster Putting the door in the back makes the air flow while towing a null concern. You can also then make the deck larger and fold-up able and lockable while traveling. I also used a folding down bed as a seating area during the day and a bed at night as some tow-a ...

### Gypsy Wagon : 40 Steps (with Pictures) - Instructables

Sheep wagons epitomize the West. Invented in Rawlins, Wyoming in 1884 by a black smith named James Candlish, they served as home and haven for the men and women who followed the vast herds of sheep on the ranges of the West. Sheep camps are off the grid. Owners do not have to worry about zoning restrictions or RV license, license plates ...
