Hi there, my Siemens iq800 bought in Spain doesn't come with ANY English instructions! Quite bizarre particularly when approx 400 million people have English as their first language. Anyway, this aside, it doesn't take any language at all to see that the dryer doesn't want to properly dry things. It seems to want to just have them a little dry. I understand there is something in built to ...

From a holistic perspective, this handbook explores the design, development and production of smart textiles and textile electronics, breaking with the traditional silo-structure of smart textile research and development. Leading experts from different domains including textile production, electrical engineering, interaction design and human-computer interaction (HCI) address production processes in their entirety by exploring important concepts and topics like textile manufacturing, sensor and actuator development for textiles, the integration of electronics into textiles and the interaction with textiles. In addition, different application scenarios, where smart textiles play a key role, are presented too. Smart Textiles would be an ideal resource for researchers, designers and academics who are interested in understanding the overall process in creating viable smart textiles.
