Cricket has an alarming suicide rate. Among international players for England and several other countries it is far above the national average for all sports: and there have been numerous instances at other levels of the game. For thirty years, celebrated cricket author David Frith has collected data on this sad subject. Silence of the Heart is his compelling account of over a hundred cricketers - involving top names from the past hundred years - who have taken their own lives, with an explanation of factors that led to their premature deaths. Can the shocking rate of self-destruction among cricketers be reduced? Can those who run the game do something to save its participants from this dreadful fate? These are among the questions addressed within this catalogue of biographies. But the key question is whether cricket itself is to blame for its losses - or is that this summer game attracts people of a melancholic and over-sensitive nature? Stoddart, Shrewsbury, Gimblett, Bairatow, Trot, Iverson, Robertson-Glasgow, Barnes . . . There remains a sense of disbelief that these high-profile cricketers killed themselves. And many more cases are examined in this extraordinary book, which comes crammed with detail, is not devoid of humour, and must rank among the most intricately researched volumes in cricket's extensive library. With a foreword by former England captain Mike Brearley, now a psychotherapist, Silence of the Heart is a startling investigative narrative covering the phenomenon of cricket's unduly high level of suicide.

A powerful sequel to Love Without Conditions. John Bradshaw says: "with deep insight and sparkling clarity, this book demonstrates that the roots of all abuse are to be found in our own self-betrayal. Paul Ferrini leads us skilfully and courageously beyond shame, blame, and attachment to our wounds into the depths of self-forgiveness... a must read for all people who are ready to take responsibility for their own healing".

A Washington Post Notable Book One of the Best Books of the Year! NPR, The Economist, Financial Times Shortlisted for the Costa Novel Award Finalist for the Women's Prize for Fiction Here is the story of the Iliad as we've never heard it before! in the words of Briseis, Trojan queen and captive of Achilles. Given only a few words in Homer's epic and largely erased by history, she is nonetheless a pivotal figure in the Trojan War. In these pages she comes fully to life: wry, watchful, forging connections among her fellow female prisoners even as she is caught between Greece's two most powerful warriors. Her story pulls back the veil on the thousands of women who lived behind the scenes of the Greek army camp-concubines, nurses, prostitutes, the women who lay out the dead-as gods and mortals spar, and as a legendary war hurtles toward its inevitable conclusion. Brilliantly written, filled with moments of terror and beauty, The Silence of the Girls gives voice to an extraordinary woman-and makes an ancient story new again.

The subtitle of Maggie Ross's new book captures its essence, for it is about silence and our need to behold God. Beholding is a notion that we are in danger of losing. It is often lost in translation, even by the NRSV and the Jerusalem Bible. Beholding needs to be recovered both in theology and practice. Ross is very aware of "poor talkative Christianity." There is a twofold plea to enter into silence--for lack of silence erodes our humanity--and to behold the radiance of God. This is a book full of deep questioning and the testing of our assumptions. Throughout there is a great love for the world and for our humanity, accompanied by sadness that we are so easily distracted We are invited into a silence that is not necessarily an absence of noise, but is a limitless interior space. Ancient texts are used in new and exciting ways, and many of our worship practices are challenged. She is in no doubt that "the glory of the human being is the beholding of God." --adapted from a review in The Church Times (London) by Canon David Adam.
