Smaller Faster Lighter Denser Cheaper: How Innovation ...

Bryces contention here is simple: human ingenuity is making things smaller, faster, lighter, cheaper, and denser and as a result humanity is improving and so is the environment. By making our energy resources denser, we are paving the way towards a cleaner environmental in which natural gas and nuclear energy are used the most.

Smaller Faster Lighter Denser Cheaper: How Innovation ...

In the face of today's environmental and economic challenges, doomsayers preach that the only way to stave off disaster is for humans to reverse course: to de-industrialize, re-localize, ban the use of modern energy sources, and forswear prosperity. But in this provocative and optimistic rebuke to the catastrophists, Robert Bryce shows how innovation and the inexorable human desire to make things Smaller Faster Lighter Denser Cheaper is providing consumers with Cheaper and more abundant ...
