*NPM*

Orion Network

Performance Monitor

(NPM) as an appliance.

I've been asked by my management to look at

Network Performance

and Monitoring product

such as StatSeeker and

Open-Source NMIS and

Solarwind Orion NPM.

I like Orion NPM

because I used it in the

File Type PDF

Solarwinds

past and it is easy to use.

The issue I have with Orion NPM is that it is running on Microsoft Windows platform and it also requires MS SQL Server (we have large environment).

Solarwinds

first products, Trace  
Route and Ping Sweep,  
earlier in March 1998  
and released its first  
web-based network  
performance monitoring  
application in  
November 2001.

According to Michael  
Bennett, who became  
the chief executive  
officer in 2006, [11] the  
name SolarWinds was  
chosen by an early

File Type PDF

Solarwinds

employee and that the company has nothing to do with solar or wind power . [12]
