We will claim her. She looks at my triad with disgust and hatred. We stare at her with pure hunger. Captured and forced to battle in the blood-soaked arenas of Bugra, my triad will live and die under the scorching sun. The only thing that moves our weary muscles and overcomes the pain of our wounds is the obsession of claiming our fated mate. She is brought to us humiliated and disheveled, and yet still her eyes burn with defiance. We are born to battle. We are born to blood and violence. Aurelians have no master, and when we break our shackles there will be a reckoning. She will be ours, even if I have to level empires and plunge the universe into war. I would kill for her, die for her, even as her hatred burns me to the core. She will be ours. Look inside to preview the book!

Why didn't the ancient Greeks or Romans wear pants? How did they shave? How likely were they to drink fine wine, use birth control, or survive surgery? In a series of short and humorous essays, *Naked Statues, Fat Gladiators, and War Elephants* explores some of the questions about the Greeks and Romans that ancient historian Garrett Ryan has answered in the classroom and online. Unlike most books on the classical world, the focus is not on famous figures or events, but on the fascinating details of daily life. Learn the answers to: How tall were the ancient Greeks and Romans? How long did they live? What kind of pets did they have? How dangerous were their cities? Did they believe their myths? Did they believe in ghosts, monsters, and/or aliens? Did they jog or lift weights? How did they capture animals for the Colosseum? Were there secret police, spies, or assassins? What happened to the city of Rome after the Empire collapsed? Can any families trace their ancestry back to the Greeks or Romans?

\*Includes pictures of art depicting important people, places, and events. \*Describes the different classes of Roman gladiators and the armor and weaponry they used. \*Describes gladiatorial combat and the myths and misconceptions about the fight. \*Includes footnotes and a bibliography for further reading. "He vows to endure to be burned, to be bound, to be beaten, and to be killed by the sword." - The gladiator's oath, according to Petronius in the *Satyricon*. Gladiators are somewhat synonymous with ancient Rome, and even thousands of years after they performed on the sands, when people are asked about Roman culture, many think about and refer to the bloody spectacles of men fighting to the death in the arena. Gladiatorial combat is often regarded as barbaric, and most find it very difficult to comprehend how people could have enjoyed watching something so violent, but nevertheless, the spectacle still intrigues and fascinates people today, whether in movies like *Gladiator* or television shows about *Spartacus*. Gladiatorial combat traces its origins back to the early Republican period from the 5th-3rd century B.C., but it's still unclear where these combats first appeared. Credit has been given to both the Etruscans in northern Italy and the Campanians in southern Italy, though the first recorded gladiatorial combat occurred in the 3rd century B.C. at the funeral of D. Junius Brutus Pera. His sons organized a combat between three different pairs of gladiators who fought at their father's grave, but exactly what these first gladiatorial combats were supposed to represent remains unclear. Some believe that the spilling of human blood was a way of offering a sacrifice to the dead, while others suggest that the contests themselves were a funeral offering in honor of the dead. Gladiatorial combat began in the Republican period and was associated with death and burial, but due to its popularity it became an organized form of entertainment in the Imperial Age, and even as the gladiators were considered low class, they were also admired, leading to some Roman men and women volunteering to become gladiators. Whatever the original role of gladiatorial combats, they thrilled Roman audiences for many centuries. Each match usually pitted one type of gladiator against a different type of gladiator, with each having their own kind of armor, weaponry and fighting style. For example, the *retiarius* was a gladiator that used a net, dagger

and trident as his offensive weapons, while only wearing a protective guard over his left arm for protection. The retiarius would typically fight against the secutor, a gladiator armed with a sword, large shield, helmet and protective covering on his right arm and left leg. Therefore, a retiarius sacrificed armor for quickness in battle, while the secutor did the opposite. Although people often think of gladiators fighting to the death, the outcome of gladiatorial combats was not always fatal for one of the participants. If a gladiator fought well, the sponsor of the show could spare him, particularly if the crowd desired it. The fact that the outcome of matches was never the same and the crowd could help determine the result of the match certainly added to the Roman public's pleasure, making it a lot less surprising that such an abhorrent spectacle still fascinated the modern world. The Roman Gladiators: The History and Legacy of Ancient Rome's Most Famous Warriors examines the history of the gladiators and the games they participated in, explaining what life and death was like for the men who fought in Rome's most famous form of entertainment. Along with pictures depicting important people, places, and events, you will learn about gladiators like you never have before.

Examines life as a gladiator in ancient Rome, discussing a fighter's weapons and training, on board pages cut to replicate a 3-D Colosseum, the arena where the games took place.

Aggressive, explosive, and boasting awesome athletic ability, Dan Clark rose to tremendous fame as Nitro on American Gladiators. He quickly emerged as the most popular cast member and became a reality television superstar. But a twenty-year affair with steroids led to a life of pissing blood, smuggling drugs, destroying hotel rooms, getting arrested, growing breasts, and lying bloodied in the street after a vicious fight with his best friend. This is Clark's riveting, fiercely candid account of his life, career, and steroid addiction. From an upbringing defined by tragedy and a difficult search for identity to tales of performing center stage at Madison Square Garden and bedding Playboy Bunnies and porn stars, Clark explores the price of fame, the pressure of stardom, and how the whole steroid-fueled fantasy finally imploded. What began in high school as a way to speed up recovery from injury rapidly turned into an all-consuming addiction. With self-deprecating humor and a trove of incredible stories, Clark provides an eye-opening report on the dangers of steroids both obvious and hidden -- and offers his thoughts on why steroid use remains a persistent problem today. More than just a pulpy exposé, Gladiator is a triumphant story of self-discovery and redemption.
