Neurology: A Queen Square Textbook is a remarkable fusion of modern neuroscience with traditional neurology that will inform and intrigue trainee and experienced neurologists alike. Modern neuroscience has penetrated exciting and diverse frontiers into the causes, diagnosis, and treatment of neurological disease. Clinical neurology, whilst greatly enhanced by dramatic advances in molecular biology, genetics, neurochemistry and physiology, remains deeply rooted in practical traditions: the history from the patient and the elicitation of physical signs. Neurologists, neuroscientists and neurosurgeons working at Queen Square, and advised by an international editorial team, have combined their expertise and experience to produce this unique text. The synthesis of clinical neurology with translational research provides a fresh perspective which is Practical Multidisciplinary Translational Integrative The blend of new science and proven practice underpins this creative approach towards investigating and improving the care of patients suffering from neurological diseases. About Queen Square The world-renowned National Hospital for Neurology & Neurosurgery and UCL Institute of Neurology, based in Queen Square, London, have an international reputation for training, research and patient care. Research at both institutions leads developments in translational medicine that are transforming the treatment of neurological disease.

This is a comprehensive review for the new trauma-certified registered nurse exam, featuring innovative clinical judgment--enhancing content review, 500 practice-test Q&As with rationales, test-taking skills, and in-depth coverage of the test blueprint. This review is distinguished by its unique "Think in Questions" format, which helps readers to anticipate the kinds of questions that might be asked and promotes critical thinking throughout the exam. The content review is comprised of bite-size sections for easier learning and memorization that include thousands of unfolding questions, answers, and hints. The review's user-friendly format guides candidates through each topic with a short content review followed by a Socratic-style Q&A reasoning process to assist in arriving at the best possible clinical judgment. It also includes plentiful tables and charts to reinforce learning, a chapter on test-taking skills, specific guidance on preparing for the certification exam, and useful suggestions related to the exam format. Key Features: Goes beyond mere memorization of facts with "Think in Questions" Socratic-style content review Provides content review, practice exam-style Q&A with rationales, test-taking skills, and test blueprint format Includes thousands of unfolding questions, answers, and hints Contains "bite-size" sections for each topic for easier learning and memorization Includes 500 exam-style questions with rationales The Board of Certification for Emergency Nursing (BCEN) is the sole owner of the Trauma Certified Registered Nurse (TCRN) certification program. BCEN does not endorse any TCRN certification exam review resources or have a proprietary relationship with Springer Publishing Company.

The first medical specialty selection guide written by residents for students! Provides an inside look at the issues surrounding medical specialty selection, blending first-hand knowledge with useful facts and statistics, such as salary information, employment data, and match statistics. Focuses on all the major specialties and features firsthand portrayals of each by current residents. Also includes a guide to personality characteristics that are predominate with practitioners of each specialty. " A terrific mixture of objective information as well as factual data make this book an easy, informative, and interesting read. " --Review from a 4th year Medical Student

Best of Five MCQs for the Geriatric Medicine SCE is the first revision guide designed specifically for this new high-stakes exam. It contains 300 best of five questions with explanatory answers, each accurately reflecting the layout of questions in the exam. The book is divided into three exams for trainees to test themselves on, providing a thorough assessment of the candidate's geriatric medicine knowledge and covering all the main themes of the exam, for example, falls, dementia and delirium, palliative care, nutrition, and stroke. The explanatory answers include references to guidelines and other sources to enable candidates' further reading and study. Ideal for Geriatric Medicine Specialty Registrars, trainees revising for the Geriatric Medicine Specialty Certificate Examination or the Diploma in geriatric medicine.

Neurology Board Review: Questions and Answers is an easy to read guide that was created to prepare the reader for the American Board of Psychiatry and Neurology (ABPN) certification and recertification exams. It was specifically designed to cover the topics listed in the ABPN content outline, which should be used in tandem with this book, and includes questions about recent practice parameters published by the American Academy of Neurology. Formatted in a user-friendly way, utilizing case-based and multiple choice questions, this book promotes absorption of key facts and neurological concepts quickly and on-the-go. This authoritative resource provides an in-depth look at basic neuroscience, critical care and trauma, cerebrovascular diseases, movement disorders, neuromuscular diseases, psychiatry, behavioral neurology, clinical neurophysiology, headaches and pain, metabolic disorders, pediatric neurology and sleep disorders. With over 1,000 questions, Neurology Board Review illustrates key concepts using short and pithy explanations; including informative illustrations, descriptive tables, and a list of further readings at the end of each section. This is the perfect study aid for residents and neurologists alike.

"This book is an authoritative and well-structured text which is both topic and curriculum oriented, aimed to appeal to a wider multi-professional audience in line with the current NHS workforce training needs in the UK. It is based on the 'specialist certificate examination' awarded for the completion of higher specialist training"--

This text guides patterns of practice; improves quality of care; promotes appropriate use of health care services; and explains physical therapist practice to insurers, policymakers, and other health care professionals. This edition continues to be a resource for both daily practice and professional education.
