on the autopilot computer (these specs are called out in the maintenance manual). If the TC output isn't up to speed, then an overhauled unit must replace it. We use a turntable to verify proper operation of the instrument during turns. If the TC generates excessive noise or the warning flag doesn't function properly, then it's...

King Air: Garmin G600 with Sperry SPZ-200 Autopilot
February 2016. The Duncan Aviation Sacramento Avionics
shop performed a Garmin avionics upgrade on a King Air.
We removed the analog equipment on the pilot ' s
instrument panel and installed a Garmin G600 Integrated
2-Display System in accordance with the Garmin AML STC.

~~King Air: Garmin G600 with Sperry SPZ-200 Autopilot ...~~

It was a fine autopilot, the pilots loved it. The only problems I
can recall having was from bad vertical gyros or bad
previous maintenance. The SPZ-200A/500 is listed in the

G600 AML STC, but the SPZ-200 is not. I do not think it would be an issue getting a field approval for the SPZ-200 installs, shops are doing these deviations regularly now ...

~~BeechTalk.com • BT - Sperry 200 Autopilot~~

William, The SPZ 200 is an awesome autopilot system, it was in my 79-E90 which I sold to some good folks in Longview TX, and I have it in my B200. It can be a bit of a pain to trouble shoot without a donor airplane. I would suggest trying to find another Sperry equipped KA that you can swap boxes with. Start with the autopilot computer, then ...

What made it especially easy for me and comfortable for the passengers was my use of the autopilot in modes that are very rarely utilized. In this particular King Air, the autopilot is the Sperry SPZ-4000, the digital version of the very popular SPZ-200A system. If you are flying one of these systems, a King KFC-300 or KFC-400, a Collins AP-105, 106 or 107, an APS-80 or some version of the APS ...

The autopilot control panel of a Boeing 747-200 aircraft. An autopilot is a system used to control the trajectory of an aircraft, marine craft or spacecraft without requiring constant manual control by a human operator. Autopilot does not replace human operators. Instead, autopilot assists the operator's control of the vehicle, allowing the operator to focus on broader aspects of operations ...
