A total of 39 stamped amphora handles were found during excavations at Tel Beersheba between 1969 and 1976 by the Institute of Archaeology at Tel Aviv University under the direc- tion of the late Yohanan Aharoni. Since the handles come from poorly stratified contexts, they cannot be considered as having any real stratigraphic value,

A: The Stoa of Attalos Research Center at the Athenian Agora holds one of the largest collections of Thasian amphora stamps found in archaeological excavations. One thing that makes this collection special is the fact that many of the stamped fragments come from well-documented deposits related to the ancient buildings and the infrastructure of the Agora.

These are indicative of the military nature of the site and the efforts to take it. The finds also included were coins from the reigns of Antiochus Epiphanes through Antiochus VII Sidetes, as well as a multitude of stamped Rhodian amphora handles. Archaeological architect Leen Ritmeyer disagrees with this identification.
